

# Contents

<i>Detailed Contents</i>	xiii
--------------------------	------

## **PART I: DATA HANDLING** . . . . . 1

<i>Chapter 1 Averages and Layout</i>	3
--------------------------------------	---

<i>Chapter 2 Using Prior Knowledge</i>	28
--	----

<i>Chapter 3 Tables and Graphs</i>	38
------------------------------------	----

<i>Chapter 4 Compared with What?</i>	56
--------------------------------------	----

## **PART II: LAWLIKE RELATIONSHIPS** . . . . . 65

<i>Chapter 5 Descriptive Relationships</i>	67
--	----

<i>Chapter 6 Using a Given Relationship</i>	79
---	----

<i>Chapter 7 Deriving a New Relationship</i>	95
--	----

<i>Chapter 8 Non-linear Relationships</i>	115
---	-----

<i>Chapter 9 Many Variables</i>	135
---------------------------------	-----

<i>Chapter 10 The Emergence of Theory</i>	153
---	-----

## **PART III: STATISTICAL VARIATION** . . . . . 167

<i>Chapter 11 Summary Measures</i>	169
------------------------------------	-----

<i>Chapter 12 Frequency Distributions</i>	187
---	-----

<i>Chapter 13 Probability Models</i>	214
--------------------------------------	-----

<i>Chapter 14 Correlation and Regression</i>	233
--	-----

<i>Chapter 15 Multivariate Techniques</i>	259
---	-----

<b>PART IV: SAMPLING</b>	283
<i>Chapter 16 Taking a Sample</i>	285
<i>Chapter 17 Sampling Distributions</i>	300
<i>Chapter 18 Statistical Inference</i>	314
<b>PART V: EMPIRICAL GENERALISATION</b>	339
<i>Chapter 19 Observation and Experimentation</i>	341
<i>Chapter 20 Description and Explanation</i>	359
<i>List of Exercises</i>	371
<i>References</i>	377
<i>Name Index</i>	381
<i>Subject Index</i>	383
