Stochastic Partial Differential Equations in Turbulence Related Problems

PAO-LIU CHOW

| | |
|--|----|
| I. Introduction | 2 |
| II. Theory of Stochastic Partial Differential Equations | 3 |
| III. Linear Stochastic Partial Differential Equations in Weak Turbulence | 18 |
| IV. Partial Differential Equations in Stochastic Wave Propagation | 22 |
| V. Stochastic Equations in Turbulent Transport Theory | 28 |
| VI. Markovian Model Equations in Turbulence | 33 |
| References | 40 |

Estimation and Stochastic Control for Linear Infinite-Dimensional Systems

RUTH F. CURTAIN

| | |
|---|----|
| I. Introduction | 45 |
| II. The Semigroup Description of Linear Autonomous Systems | 46 |
| III. Stochastic Evolution Equations | 51 |
| IV. Deterministic Quadratic Cost-Control Problem | 60 |
| V. State Estimation | 64 |
| VI. The Separation Principle for Stochastic Optimal Control | 69 |
| VII. Extensions | 73 |
| References | 84 |

Random Integrodifferential Equations

D. KANNAN

| | |
|-----------------------------------|----|
| I. Introduction and Preliminaries | 87 |
|-----------------------------------|----|

v

| | |
|---|-----|
| II. Existence and Uniqueness of Solution | 103 |
| III. Some Stochastic Properties of Solution Processes | 126 |
| IV. Small Perturbations | 148 |
| V. Vibrating String | 157 |
| References | 165 |

Equivalence and Singularity of Gaussian Measures and Applications

S. D. CHATTERJI AND V. MANDREKAR

| | |
|---|-----|
| I. Introduction | 169 |
| II. General Problem of Equivalence and Singularity | 171 |
| III. Reproducing Kernel Hilbert Spaces and Gaussian Processes | 175 |
| IV. Equivalence and Singularity of Gaussian Processes | 180 |
| V. Conditions for Equivalence: Special Cases | 185 |
| VI. Applications | 189 |
| VII. Concluding Remarks | 194 |
| Appendix | 194 |
| References | 195 |

Stochastic Riemannian Geometry

MARK A. PINSKY

| | |
|--|-----|
| I. Introduction | 199 |
| II. Brownian Motion | 201 |
| III. Semilocal Properties | 210 |
| IV. Asymptotic Properties, $t \rightarrow 0$ | 216 |
| V. Asymptotic Properties, $t \rightarrow \infty$ | 221 |
| VI. Bibliographical Remarks | 234 |
| References | 234 |

| | |
|--------------|-----|
| <i>Index</i> | 237 |
