

CONTENTS

<i>List of Contributors</i>	vii
<i>Preface</i>	ix
Time Series Analysis and Control through Parametric Models <i>Hirotsugu Akaike</i>	1
Non-Linear Time Series Modeling <i>C. W. J. Granger and A. Andersen</i>	25
On G-Spectral Estimation <i>H. L. Gray, A. G. Houston, and F. W. Morgan</i>	39
Multivariate Autoregression Estimation Using Residuals <i>Richard H. Jones</i>	139
Two-Dimensional Recursive Filtering in Theory and Practice <i>James H. Justice</i>	163
Adaptive Processing of Seismic Data <i>Stanley J. Laster</i>	225
A Comparative Case Study of Several Spectral Estimators <i>Don McIntire</i>	245
Application of Homomorphic Filtering to Seismic Data Processing <i>A. Oppenheim and J. Tribolet</i>	261
Waves Propagating in Random Media as Statistical Time Series <i>Enders A. Robinson</i>	287
Estimating the Intensity of a Poisson Process <i>G. S. Watson</i>	325
