

Contents

Preface	vii
---------------	-----

Chapter I. Basic Remarks on Multivariate Probability Distributions

1. Cumulative Distribution Function and Probability Density Function .	1
2. Marginal and Conditional Distributions. Independence.....	3
3. Expected Values and Moments	5
4. Characteristic Functions	12
5. Multivariate Normal Distribution	14
6. Some Multivariate Discrete Distributions	22
7. Examples of Continuous Multivariate Distributions	30

Chapter II. Elements of the Theory of Point Statistical Estimation in the Multivariate Case

1. Samples, Statistics, Estimators and Problems of Statistical Estimation	43
2. Risk of Statistical Estimator. Consistency. Unbiasedness.....	46
3. Sufficiency, Completeness and Unbiased Estimators	48
4. The Rao-Cramer Inequality	51
5. The Rao-Blackwell-Kolmogorov Theorem	60
6. On Estimating Parameters of the Multivariate Normal Distribution .	62
7. The Stein Approach for Estimators Improvement	74

Chapter III. Techniques for Constructing Unbiased Estimators

1. Techniques for Constructing MVUEs	96
2. Unbiased Estimators for the Multivariate Probability Density Functions	110
3. Minimum Variance Unbiased Estimation for Multivariate Modified Power Series Distributions.....	124

Chapter IV. Applications of Unbiased Estimators

1. On an Estimating the Momentum of a Relativistic Particle	137
2. A Statistical Group Classification of Normal Populations	140
3. A Remark on the Chauvenet Criterion	151
4. Testing Hypotheses for Small Samples in the Presence of Sufficient Statistics	155
5. A Remark on Using of Conditional Distributions. Gerig's Test	167
6. A Remark on Analysis of Variance	172
7. Unbiased estimators of the reliability	178
8. A Chi-Square Goodness-of-Fit Test for	

Several Exponentials With a Common Shift.....	185
Appendix 1. Tables of Unbiased Estimators	
A1. MVUEs for Functions of Parameters of the Multivariate Normal Distribution	191
A2. MVUEs for Functions of Parameters of the Multinomial Distribution	202
A3. MVUEs for Functions of Parameters of the Trinomial Distribution	204
A4. MVUEs for Functions of Parameters of the Negative Multinomial Distribution.....	205
A5. MVUEs for the Left Truncated Multivariate Modified Power Series Distribution	208
A6. MVUEs for Functions of Parameters of the Left Truncated Multivariate Exponential Distribution (σ is known).....	212
A7. MVUEs for Functions of Parameters of the Left Truncated Multivariate Exponential Distribution.....	215
A8. MVUEs for a two-dimensional one-truncation parameter family ..	219
Appendix 2. On Evaluating Some Multivariable Integrals.....	222
Appendix 3. Partitions and Some Multivariable Statistical Problems.....	228
