Contents

Preface vii

1. Introduction 1

1.1 Motivation and Background 1
1.2 Conceptual Problems of Validity Generalization 4
1.3 An Alternative Formulation 6

2. A Validity Generalization Model 7

2.1 Introduction 7
2.2 Classical Test Theory 8
2.3 A Validity Generalization Random Model 10
2.4 The Joint Space of P and E 12
2.5 P and E Are Dependent Variables 13
2.6 The Distribution of R, $c(r)$ 13
2.7 Are P and E Correlated? 14
2.8 Identifiability 17

3. Estimation 21

3.1 Introduction 21
3.2 Lehmann's Classification 21
3.3 Sample Data 22
3.4 The Basic Sample Estimates 23
3.5 The Estimator $S_P^2 = S_R^2 - S_*^2$ 25
3.6 Interpreting Estimators 25
3.7 The Expectation of S_R^2 26
3.8 The Expectation of S_*^2 27
3.9 The Expectation of S_P^2 27
3.10 Numerical Evaluation of $\mathscr{E}(S_P^2)$ 28
3.11 The Distribution of S_P^2 and the Power Problem 30
3.12 The Consistency of S_P^2 32
3.13 The Limiting Behavior of S_R^2 34
3.14 Multifactor Estimation Procedures 34
3.15 A Representative Multifactor Estimator 35
3.16 A Comment on Z Transformations 37

4. Summary and Discussion of Validity Generalization 38

4.1 Summary of Model Properties 38
4.2 Validity Generalization and Classical Test Theory 39
4.3 Summary of Estimation Procedures 39
4.4 Consistency and Identifiability 41
4.5 The Bayesian Connection 42
4.6 Computer Simulation Studies 43

5. A Conditional Mixture Model for Correlation Coefficients 45

5.1 Introduction 45
5.2 Finite Mixture Distributions 45
5.3 A Modeling Distribution for R 47
5.4 A Mixture Model Distribution for R 49
5.5 A Parent Distribution for Histograms of R 51
5.6 Comment 51

6. Parameter Estimation 52

6.1 Introduction 52
6.2 Estimation Equations 52

7. Examples and Applications 54

7.1 Introduction 54
7.2 Artificial Data, Example 1 55
7.3 How Many Components in the Mixture? 57
7.4 Electrical Workers, Example 2 58
7.5 Army Jobs, Example 3 59
7.6 Army Jobs, Example 4 61
7.7 College Grades, Example 5 67
7.8 Law School Test Scores and Grades, Example 6 68

8. Artifact Corrections and Model Assumptions 71

8.1 Artifact Corrections 71
8.2 Identifiability of Mixtures 77
8.3 Failure of Model Assumptions 77
8.4 Properties of the Maximum Likelihood Estimates 78
8.5 Miscellaneous Comments 79
