

BRIEF CONTENTS

Part 1

Foundation Concepts 1

- CHAPTER 1 Introduction to Cost Management 3
- CHAPTER 2 Basic Cost Management Concepts 23
- CHAPTER 3 Cost Behavior 50
- CHAPTER 4 Activity-Based Costing 85

Part 2

Fundamental Costing and Control 128

- CHAPTER 5 Product and Service Costing: Job-Order System 130
- CHAPTER 6 Product and Service Costing: A Process Systems Approach 167
- CHAPTER 7 Allocating Costs of Support Departments and Joint Products 209
- CHAPTER 8 Budgeting for Planning and Control 249
- CHAPTER 9 Standard Costing: A Functional-Based Control Approach 297
- CHAPTER 10 Decentralization: Responsibility Accounting, Performance Evaluation, and Transfer Pricing 336

Part 3

Advanced Costing and Control 374

- CHAPTER 11 Strategic Cost Management 376
- CHAPTER 12 Activity-Based Management 429
- CHAPTER 13 The Balanced Scorecard: Strategic-Based Control 467
- CHAPTER 14 Quality and Environmental Cost Management 497
- CHAPTER 15 Productivity Measurement and Control 533
- CHAPTER 16 Lean Accounting 562

Part 4

Decision Making 588

- CHAPTER 17 Cost-Volume-Profit Analysis 590
- CHAPTER 18 Activity Resource Usage Model and Tactical Decision Making 632
- CHAPTER 19 Pricing and Profitability Analysis 669
- CHAPTER 20 Capital Investment 714
- CHAPTER 21 Inventory Management: Economic Order Quantity, JIT, and the Theory of Constraints 760

Glossary 797
Subject Index 809
Company Index 831

CONTENTS

Part 1 Foundation Concepts 1

CHAPTER 1 Introduction to Cost Management 3

A Systems Framework 3

Accounting Information System 4

Factors Affecting Cost Management 6

Global Competition 7

Growth of the Service Industry 7

Advances in Information Technology 7

Advances in the Manufacturing Environment 8

Customer Orientation 9

New Product Development 9

Total Quality Management 10

Time as a Competitive Element 10

Efficiency 10

The Role of the Management Accountant 10

Planning 10

Controlling 11

Continuous Improvement 11

Decision Making 11

Accounting and Ethical Conduct 12

Benefits of Ethical Behavior 12

Standards of Ethical Conduct for Management Accountants 12

Certification 14

Certificate in Management Accounting 14

Certificate in Public Accounting 14

Certificate in Internal Auditing 14

CHAPTER 2 Basic Cost Management Concepts 23

Cost Assignment: Direct Tracing, Driver Tracing, and Allocation 23

Cost Objects 24

Accuracy of Assignments 24

Product Costs 26

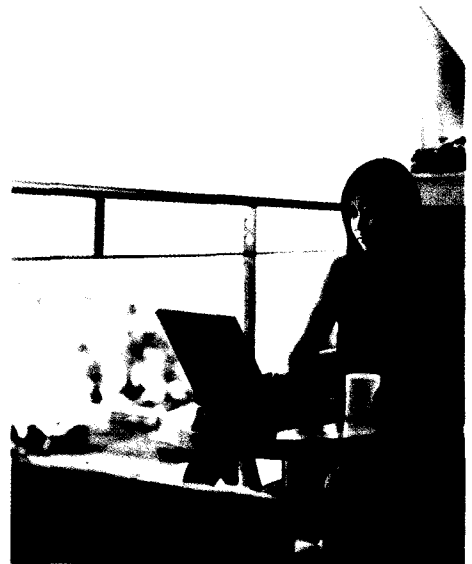

Product Cost Definitions 27

Product Costs and External Financial Reporting 27

External Financial Statements 30

Income Statement: Manufacturing Firm 30

Income Statement: Service Organization 32

CHAPTER 3 Cost Behavior 50

Basics of Cost Behavior 51

Fixed Costs 51

Variable Costs 52

Mixed Costs 53

Time Horizon 54

Resources, Activities, and Cost Behavior 55

Flexible Resources 55

Committed Resources 55

Step-Cost Behavior 56

Methods for Separating Mixed Costs into Fixed and Variable Components 58

The High-Low Method 59

Scatterplot Method 60

The Method of Least Squares 61

Using Regression Programs 63

Reliability of Cost Formulas 64

Hypothesis Testing of Parameters 65

Goodness of Fit Measures 65

Confidence Intervals 65

Multiple Regression 66

The Learning Curve and Nonlinear Cost Behavior 69

Cumulative Average-Time Learning Curve 69

Managerial Judgment 71

CHAPTER 4 Activity-Based Costing 85

Functional-Based Product Costing 86

Overhead Application: Plantwide Rate 87

Disposition of Overhead Variances 88

Overhead Application: Departmental Rates 89

Limitations of Plantwide and Departmental Rates 90

Non-Unit-Related Overhead Costs 90

Product Diversity 91

An Example Illustrating the Failure of Unit-Based Overhead Rates 91

ABC Users 96

Activity-Based Costing System 96

Activity Identification, Definition, and Classification 97

Assigning Costs of Overhead Resources to Activities 99

Assigning Secondary Activity Costs to Primary Activities 101

Cost Objects and Bills of Activities 102

Activity Rates and Product Costing 103

Reducing the Size and Complexity of an ABC System 103

Approximately Relevant ABC Systems 104

Time-Driven ABC Systems 106

CHAPTER 5 Product and Service Costing: Job-Order System 130

- Characteristics of the Production Process 130
 - Manufacturing Firms versus Service Firms 131
 - Unique versus Standardized Products and Services 131
- Setting Up the Cost Accounting System 132
 - Cost Accumulation 132
 - Cost Measurement 133
 - Cost Assignment 134
 - Choosing the Activity Level 136
- The Job-Order Costing System: General Description 137
 - Overview of the Job-Order Costing System 137
 - Job Time Tickets 139
 - Overhead Application 140
 - Unit Cost Calculation 140
- Job-Order Costing: Specific Cost Flow Description 141
 - Accounting for Direct Labor Cost 142
 - Accounting for Overhead 143
 - Accounting for Finished Goods Inventory 144
 - Accounting for Cost of Goods Sold 146
 - Accounting for Nonmanufacturing Costs 148
- Single versus Multiple Overhead Rates 148
- Appendix: Accounting for Spoilage in a Traditional Job-Order System 150

CHAPTER 6 Product and Service Costing: A Process Systems Approach 167

- Process-Costing Systems: Basic Operational and Cost Concepts 167
 - Cost Flows 168
 - The Production Report 170
 - Unit Costs 170
- Process Costing with No Beginning or Ending Work-in-Process Inventories 172
 - Service Organizations 172
 - JIT Manufacturing Firms 172
 - The Role of Activity-Based Costing 173
- Process Costing with Ending Work-in-Process Inventories 173
 - Equivalent Units as Output Measures 173
 - Cost of Production Report Illustrated 174
 - Nonuniform Application of Productive Inputs 174
 - Beginning Work-in-Process Inventories 176
- FIFO Costing Method 176
 - Step 1: Physical Flow Analysis 177
 - Step 2: Calculation of Equivalent Units 178
 - Step 3: Computation of Unit Cost 178
 - Step 4: Valuation of Inventories 178
 - Step 5: Cost Reconciliation 179
 - Journal Entries 179

Weighted Average Costing Method 180
 Step 1: Physical Flow Analysis 181
 Step 2: Calculation of Equivalent Units 181
 Step 3: Computation of Unit Cost 182
 Step 4: Valuation of Inventories 182
 Step 5: Cost Reconciliation 182
 Production Report 183
 FIFO Compared with Weighted Average 184

Treatment of Transferred-In Goods 184
 Step 1: Physical Flow Analysis 185
 Step 2: Calculation of Equivalent Units 186
 Step 3: Computation of Unit Costs 186
 Step 4: Valuation of Inventories 186

Operation Costing 187
 Basics of Operation Costing 188
 Operation Costing Example 189

Appendix: Spoiled Units 191

CHAPTER 7 Allocating Costs of Support Departments and Joint Products 209

An Overview of Cost Allocation 209
 Types of Departments 210

Allocating One Department's Costs to Another Department 213
 A Single Charging Rate 213
 Dual Charging Rates 214
 Budgeted versus Actual Usage 216
 Fixed versus Variable Bases: A Note of Caution 218

Choosing a Support Department Cost Allocation Method 219
 Direct Method of Allocation 219
 Sequential Method of Allocation 220
 Reciprocal Method of Allocation 223
 Comparison of the Three Methods 225

Departmental Overhead Rates and Product Costing 225

Accounting for Joint Production Processes 226
 Cost Separability and the Need for Allocation 227
 Distinction and Similarity between Joint Products
 and By-Products 227
 Accounting for Joint Product Costs 228
 Allocation Based on Relative Market Value 230

CHAPTER 8 Budgeting for Planning and Control 249

The Role of Budgeting in Planning and Control 250
 Types of Budgets 250
 Gathering Information for Budgeting 252

Preparing the Operating Budget 253
 Sales Budget 254
 Production Budget 255
 Direct Materials Purchases Budget 255
 Direct Labor Budget 256

Overhead Budget 257
Ending Finished Goods Inventory Budget 257
Cost of Goods Sold Budget 258
Marketing Expense Budget 258
Research and Development Expense Budget 258
Administrative Expense Budget 259
Budgeted Income Statement 259
Operating Budgets for Merchandising and Service Firms 260

Preparing the Financial Budget 260
The Cash Budget 260
Budgeted Balance Sheet 264
Shortcomings of the Traditional Master Budget Process 265

Flexible Budgets for Planning and Control 267
Static Budgets versus Flexible Budgets 267

Activity-Based Budgets 272

The Behavioral Dimension of Budgeting 275
Characteristics of a Good Budgetary System 276

Chapter 9 Standard Costing: A Functional-Based Control Approach 297

Developing Unit Input Standards 298
Establishing Standards 298
Usage of Standard Costing Systems 298

Standard Cost Sheets 299

Variance Analysis and Accounting: Direct Materials and Direct Labor 301

Calculating Direct Materials Price and Usage Variances 301
Accounting for Direct Materials Price and Usage Variances 304
Calculating Direct Labor Variances 304
Accounting for the Direct Labor Rate and Efficiency Variances 306
Investigating Direct Materials and Labor Variances 306
Disposition of Direct Materials and Direct Labor Variances 307

Variance Analysis: Overhead Costs 308

Four-Variance Method: The Two Variable Overhead Variances 309
Four-Variance Analysis: The Two Fixed Overhead Variances 311
Accounting for Overhead Variances 315
Two- and Three-Variance Analyses 316

Mix and Yield Variances: Materials and Labor 317

Direct Materials Mix and Yield Variances 318
Direct Labor Mix and Yield Variances 319

Chapter 10 Decentralization: Responsibility Accounting, Performance Evaluation, and Transfer Pricing 336

Responsibility Accounting 336
Types of Responsibility Centers 337

Decentralization 337

Reasons for Decentralization 338
The Units of Decentralization 339

Measuring the Performance of Investment Centers 339

- Return on Investment 339
- Residual Income 342
- Economic Value Added 343
- Multiple Measures of Performance 346

Measuring and Rewarding the Performance of Managers 346

- Measuring Performance in the Multinational Firm 346
- Managerial Rewards: Encouraging Goal Congruence 347

Transfer Pricing 349

- The Impact of Transfer Pricing on Income 349

Setting Transfer Prices 350

- Market Price 350
- Negotiated Transfer Prices 351
- Cost-Based Transfer Prices 354
- Transfer Pricing and the Multinational Firm 355

Part 3: Advanced Costing and Control 374

CHAPTER 11 Strategic Cost Management 376

Strategic Cost Management: Basic Concepts 377

- Strategic Positioning: The Key to Creating and Sustaining a Competitive Advantage 377
- Value-Chain Framework, Linkages, and Activities 379
- Organizational Activities and Cost Drivers 380
- Operational Activities and Drivers 381

Value-Chain Analysis 382

- Exploiting Internal Linkages 382
- Exploiting Supplier Linkages 384
- Exploiting Customer Linkages 386

Life-Cycle Cost Management 389

- Product Life-Cycle Viewpoints 389
- Interactive Viewpoint 391
- Role of Target Costing 393

Just-in-Time (JIT) Manufacturing and Purchasing 395

- Inventory Effects 396
- Plant Layout 397
- Employee Empowerment 398
- Total Quality Control 398

JIT and Its Effect on the Cost Management System 398

- Traceability of Overhead Costs 399
- Product Costing 400
- JIT's Effect on Job-Order and Process-Costing Systems 400
- Backflush Costing 400

CHAPTER 12 Activity-Based Management 429

The Relationship between Activity-Based Costing and Activity-Based Management 430

Process Value Analysis	431
Driver Analysis: Defining Root Causes	431
Activity Analysis: Identifying and Assessing Value Content	431
Assessing Activity Performance	434
Financial Measures of Activity Efficiency	434
Reporting Value-Added and Non-Value-Added Costs	434
Trend Reporting of Non-Value-Added Costs	436
The Role of Kaizen Standards	437
Benchmarking	438
Activity Flexible Budgeting	439
Activity Capacity Management	441
Implementing Activity-Based Management	442
The ABM Implementation Model	442
Why ABM Implementations Sometimes Fail	444
Financial-Based versus Activity-Based Responsibility Accounting	444
Assigning Responsibility	445
Establishing Performance Measures	446
Evaluating Performance	447
Assigning Rewards	447

CHAPTER 13 The Balanced Scorecard: Strategic-Based Control 467

Activity-Based versus Strategic-Based Responsibility Accounting	468
Assigning Responsibility	469
Establishing Performance Measures	469
Performance Measurement and Evaluation	470
Assigning Rewards	471
Basic Concepts of the Balanced Scorecard	471
Strategy Translation	472
Financial Perspective, Objectives, and Measures	472
Customer Perspective, Objectives, and Measures	474
Process Perspective, Objectives, and Measures	475
Learning and Growth Perspective, Objectives, and Measures	478
Linking Measures to Strategy	480
The Concept of a Testable Strategy	480
Strategic Feedback	481
Strategic Alignment	482
Communicating the Strategy	482
Targets and Incentives	482
Resource Allocation	484

CHAPTER 14 Quality and Environmental Cost Management 497

Costs of Quality	498
Defining Quality Costs	498
Quality Cost Measurement	500
Reporting Quality Costs	500
The Role of Activity-Based Cost Management	501
Quality Cost Information and Decision Making	502
Decision-Making Contexts	502
Certifying Quality through ISO 9000	505

- Controlling Quality Costs 505
 - Choosing the Quality Standard 506
 - Types of Quality Performance Reports 507
- Defining, Measuring, and Controlling Environmental Costs 511
 - Environmental Costs Defined 512
 - Environmental Cost Report 512
 - Environmental Cost Reduction 513
 - An Environmental Financial Report 514

CHAPTER 15 Productivity Measurement and Control 533

- Productive Efficiency 534
- Partial Productivity Measurement 534
 - Partial Productivity Measurement Defined 535
 - Partial Measures and Measuring Changes in Productive Efficiency 536
 - Advantages of Partial Measures 537
 - Disadvantages of Partial Measures 537
- Total Productivity Measurement 537
 - Profile Productivity Measurement 537
 - Profit-Linked Productivity Measurement 539
 - Price-Recovery Component 540
- Measuring Changes in Activity and Process Efficiency 541
 - Activity Productivity Analysis 541
 - Process Productivity Analysis 543
 - Process Productivity Model 544

CHAPTER 16 Lean Accounting 562

- Lean Manufacturing 563
 - Value by Product 564
 - Value Stream 564
 - Value Stream Mapping 566
 - Value Flow 566
 - Pull Value 568
 - Pursue Perfection 569
- Lean Accounting 571
 - Focused Value Streams and Traceability of Overhead Costs 571
 - Value Stream Costing with Multiple Products 573
 - Value Stream Reporting 574
 - Decision Making 574
 - Performance Measurement 575
 - Implementation 576
 - Appendix: Value Stream Costing with Multiple Products:
 - Features and Characteristics Costing 577

Part 4: Decision Making 588

CHAPTER 17 Cost-Volume-Profit Analysis 590

- The Break-Even Point in Units 591
 - Operating Income Approach 591

Contribution Margin Approach 592
Profit Targets 593
After-Tax Profit Targets 594

Break-Even Point in Sales Dollars 595
Profit Targets 598
Comparison of the Two Approaches 598

Multiple-Product Analysis 598
Break-Even Point in Units 599
Sales Mix and CVP Analysis 599
Sales Dollars Approach 601

Graphical Representation of CVP Relationships 601
The Profit-Volume Graph 601
The Cost-Volume-Profit Graph 603
Assumptions of Cost-Volume-Profit Analysis 604

Changes in the CVP Variables 604
Introducing Risk and Uncertainty 606
Sensitivity Analysis and CVP 608

CVP Analysis and Activity-Based Costing 610
Example Comparing Conventional and ABC Analysis 610
Strategic Implications: Conventional CVP Analysis versus ABC
Analysis 611
CVP Analysis and JIT 612

CHAPTER 18 Activity Resource Usage Model and Tactical Decision Making 632

Tactical Decision Making 633
The Tactical Decision-Making Process 633
Qualitative Factors 635

Relevant Costs and Revenues 636
Relevant Costs Illustrated 636
Irrelevant Cost Illustrated 636

Relevancy, Cost Behavior, and the Activity Resource Usage
Model 637
Flexible Resources 637
Committed Resources 637

Illustrative Examples of Tactical Decision Making 638
Make-or-Buy Decisions 639
Keep-or-Drop Decisions 642
Special-Order Decisions 646
Decisions to Sell or Process Further 647

CHAPTER 19 Pricing and Profitability Analysis 669

Market Structure and Price 670
Pricing Policies 671
Cost-Based Pricing 671
Target Costing and Pricing 672

Other Pricing Policies 673

The Legal System and Pricing 674

Predatory Pricing 674

Price Discrimination 674

Ethics 676

Measuring Profit 676

Absorption-Costing Approach to Measuring Profit 676

Variable-Costing Approach to Measuring Profit 679

Profitability of Segments 681

Profit by Product Line 681

Divisional Profit 684

Customer Profitability 685

Overall Profit 687

Analysis of Profit-Related Variances 687

Sales Price and Price Volume Variances 687

Contribution Margin Variance 688

Market Share and Market Size Variances 689

Limitations of Profit Measurement 690

CHAPTER 20 Capital Investment 714

Capital Investment Decisions 715

Payback and Accounting Rate of Return: Nondiscounting
Methods 716

Payback Period 716

Accounting Rate of Return 718

The Net Present Value Method 719

The Meaning of NPV 719

Weighted Average Cost of Capital 719

An Example Illustrating Weighted Average Cost of Capital 720

Internal Rate of Return 721

Example with Uniform Cash Flows 721

IRR and Uneven Cash Flows 722

NPV versus IRR: Mutually Exclusive Projects 722

NPV Compared with IRR 722

Example: Mutually Exclusive Projects 724

Computing After-Tax Cash Flows 726

Conversion of Gross Cash Flows to After-Tax Cash Flows 726

Capital Investment: Advanced Technology and Environmental
Considerations 732

How Investment Differs 732

How Estimates of Operating Cash Flows Differ 733

An Example: Investing in Advanced Technology 733

Salvage Value 735

Discount Rates 735

Appendix A: Present Value Concepts 737

Future Value 737

Present Value 738

Present Value of an Uneven Series of Cash Flows 738

Present Value of a Uniform Series of Cash Flows 738

Appendix B: Present Value Tables 740

**CHAPTER 21 Inventory Management: Economic Order Quantity, JIT,
and the Theory of Constraints 760**

Just-in-Case Inventory Management 761

Justifying Inventory 761

Economic Order Quantity: A Model for Balancing Acquisition and Carrying
Costs 762

When to Order or Produce 763

Demand Uncertainty and Reordering 764

An Example Involving Setups 765

EOQ and Inventory Management 765

JIT Inventory Management 766

A Pull System 766

Setup and Carrying Costs: The JIT Approach 767

Avoidance of Shutdown and Process Reliability: The JIT Approach 768

Discounts and Price Increases: JIT Purchasing versus Holding
Inventories 771

JIT's Limitations 771

Basic Concepts of Constrained Optimization 772

One Binding Internal Constraint 773

Internal Binding Constraint and External Binding Constraint 773

Multiple Internal Binding Constraints 773

Theory of Constraints 776

Operational Measures 777

Five-Step Method for Improving Performance 778

Glossary 797

Subject Index 809

Company Index 831
