<i>Preface</i>	xiii
<i>Acknowledgments</i>	xv

1 Trends, Present and Future

Implication of Trends	1
Types of Materials Circulated	4
Trends in Library Service	6
Impact of Electronic Technology	7
Adaptable Philosophy for the Present and Future	8
Selected Bibliography	10

2 Systems Approach to Selecting Materials

Need for a System of Media Selection	12
Advantages of a Systems Approach	13
The Systems Approach Applied to Library Operations	14
Basic Flowcharting	17
Selection of Multiple Media Forms	18
A Priori Considerations to Flowcharting	21
Selected Bibliography	22

3***Selection Aids***

Purpose of a Selection Aid	24
General Functions of Selection Aids	25
Components to Be Examined When Evaluating a Selection Aid	25
Major Criteria Used in Comparing and Complementing Selection Aids	27
Evaluation Grids for Examining Selection Aids	29
Selected Bibliography	34

4***Library Media: Developing Bibliographies***

Major Categories of Media	36
Preparing a Multimedia Bibliography	42
Search and Selection Guidelines	44
Constructing a Bibliography	45
Evaluating a Bibliography	46
Selected Bibliography	48

5***Periodicals, Newspapers, and Pamphlets***

Characteristics of Periodicals	50
Characteristics of Newspapers	54
Characteristic of Pamphlets	58
Selected Bibliography	63

6***Microforms***

Definition of Microform	66
Physical Features of Microforms	67
Image Magnification and Storage Capacity	68
Positive versus Negative Microforms	68
Selecting Microforms	69
Trends in Microform Selection	71

Selecting Microform Viewers	73
Basic Microform Selection Aids	74
Selected Bibliography	77

7

16-mm Films

16-mm Film in the Library	78
Advantages of Motion Picture Films	82
Making a Motion Picture	83
Cost Effectiveness of the Motion Picture	85
Feature, Educational, and Art Films	88
16-mm Motion Picture Selection Aids	90
Criteria for Selecting 16-mm Film	94
16-mm Film Evaluation Forms	96
Selected Bibliography	100

8

8-mm Films

Physical Features of 8-mm Film	103
Physical Features of Optical and Magnetic Sound Tracks	103
Comparison of Standard 8-mm and Super 8-mm Film	105
8-mm Film Containers	106
8-mm Projection Equipment	108
Criteria for Selecting 8-mm Films	109
Selected Bibliography	111

9

Filmstrips and Slides

Filmstrips and Slides: Physical Characteristics	112
Advantages of Filmstrips and Slides	115
Local Production of Filmstrips and Slides	117
Assessing Filmstrip and Slide Projection Equipment	120
Selecting and Evaluating Filmstrips and Slides	124
Selected Bibliography	126

10***Audio Recordings***

Advantages of Audio Discs	128
Differences in Disc Recording Formats	130
Audiotapes	132
Differences in Audiotape Formats	132
Electromechanical Characteristics of Tape Recorders	133
Selecting and Evaluating a Tape Recorder	135
Making a Tape Recording	137
Speech Compression	139
Selecting Professionally Prepared Audio Recordings	140
Audio Recording Selection Aids	142
Selected Bibliography	143

11***Television***

Impact of the Television Medium	145
Library Trends in Television Utilization	147
Legal Implications of Making Video Recordings	148
Video Recording Formats	149
Selecting Video Equipment	153
Impact of Cable Television on the Library	157
Selecting and Evaluating Commercially Produced Video Recordings	158
Selected Bibliography	160

12***Globes, Maps, Models, Realia, Games,
and Simulations***

Properties and Characteristics of Maps	162
Models and Their Characteristics	170
Selecting and Obtaining Realia	174
Defining and Selecting Games and Simulations	177
Selected Bibliography	182

13***Programmed Instruction***

Programmed Instruction: A Definition	185
Psychological Principle of Programmed Instruction	186
Linear and Branching Programs	186
Major Developments	187
Textbooks versus Linear and Branching Programmed Instruction Books	189
Emerging Role of the Computer	190
Selecting Software and Compatible Hardware	191
Selected Bibliography	196

14***Books***

Fundamentals of Book Selection	198
Best, Demand, and Least-Cost Theories of Book Selection	200
The Least-Cost Book Theory	202
Developing a Book Selection Policy	203
Selecting and Evaluating a Book	205
Reference Works	208
Evaluating Fiction	210
Evaluating Nonfiction	215
Selecting Textbooks	217
Selecting Children's Books	220
Assessing and Constructing Book Reviews	223
Selected Bibliography	226

15***Learning Centers***

A Definition	229
Unique Uses of Learning Centers	230
Space Allocation	231
Individual Space Requirements	232
Designing a Centralized Learning Center	235
Advantages of Learning Centers and Learning Packages	238
Selected Bibliography	238

16***Local Preparation of Information Materials***

Rationale	241
Basic Production Equipment	242
Free and Inexpensive Materials	244
Production Criteria	246
Design Criteria	247
Evaluation Standards	247
Selected Bibliography	250

17***Selecting the Proper Medium***

Designing a Policy and Program of Equipment Selection	252
Selecting the Medium That Best Fills the Need	255
Categorizing Informational Media	258
Environments in Which Media Are Used	262
Basic Criteria for Selecting Equipment	264
Selected Bibliography	268

<i>Subject Index</i>	271
