

CONTENTS

	<i>Page</i>
Chapter I. INTRODUCTION	
1. Slide Rule Terminology	2
2. Reading Two-Figure Numbers	3
3. Slide Rule Scales as Graphic Logarithm Tables	4
Chapter II. MULTIPLICATION	
4. Solution by Logarithms	7
5. Solution by the Slide Rule	7
6. Multiplication with More Than Two Factors	8
7. Multiplication when a Product is off the <i>D</i> Scale	10
8. Locating the Decimal Point	12
Chapter III. SLIDE RULE ACCURACY	
9. Reading Three- and Four-Figure Numbers	15
10. Accuracy in Slide Rule Answers	17
Chapter IV. DIVISION	
11. Solution by Logarithms	19
12. Solution by the Slide Rule	19
13. Combined Operations	23
14. Choosing the Order of Factors	25
15. Reading Zero Figures	28
16. Proportions	28
Chapter V. USE OF THE INVERTED C SCALE	
17. Purpose of the Inverted Scales	31
18. The <i>CI</i> Scale	31
19. Division with the <i>CI</i> Scale	33
20. Multiplication with the <i>CI</i> Scale	35
21. Continued Operations with the <i>CI</i> Scale	37

Chapter VI. USE OF THE FOLDED SCALES, *CF*, *CIF*,
AND *DF*

22. Purpose of the Folded Scales	41
23. The <i>CF</i> and <i>DF</i> Scales	41
24. The <i>CF</i> Scale used with the <i>C</i> and <i>D</i> Scales for Multiplication and Division	42
25. The <i>CIF</i> Scale used with the <i>D</i> Scale	45
26. Combined Operations using the <i>CF</i> , <i>CIF</i> , <i>CI</i> , <i>C</i> , and <i>D</i> Scales	47
27. The Use of the Folded Scales when π is a Factor	48

Chapter VII. SQUARES AND SQUARE ROOTS

28. Squares	53
29. Square Roots	55
30. Accuracy of the <i>A</i> and <i>B</i> Scales	62

Chapter VIII. CUBES AND CUBE ROOTS

31. Cubes	63
32. Cube Roots	66
33. Accuracy of the <i>K</i> Scale	72

Chapter IX. TRIGONOMETRY. THE *S*, *T*, AND
ST SCALES

34. Sines. The <i>S</i> Scale	73
35. Sines of Small Angles. The <i>ST</i> Scale	79
36. Other Methods for Finding Sines of Small Angles	82
37. Law of Sines	87
38. Cosines	92
39. Cosines of Large Angles	96
40. Sines of Large Angles and Cosines of Small Angles to Five-Place Accuracy	100
41. Tangents	108
42. Tangents of Angles Greater Than 45°	113

43. Tangents of Small Angles	117
44. Tangents of Large Angles	118
45. Problems Involving Sine, Cosine, and Tangent	119
46. Cotangent, Secant, and Cosecant	122

Chapter X. THE RIGHT TRIANGLE

47. Given: The Hypotenuse and One Angle	132
48. Given: The Hypotenuse and One Angle. Procedure when the Angle is Small or Large	136
49. Given: The Two Sides	142
50. Given: The Two Sides. Procedure when $a < \frac{1}{10}b$ or $a > 10b$	157
51. Given: The Two Sides. Procedure for Slide Rules Not Having a <i>DI</i> Scale	163

Chapter XI. POWERS AND ROOTS. THE LOG LOG SCALES

52. Powers of Numbers Greater Than Unity. The <i>LL1</i> , <i>LL2</i> , and <i>LL3</i> Scales	172
53. Powers of ϵ	183
54. Roots of Numbers Greater Than Unity	185
55. Powers of Numbers Less Than Unity. The <i>LL0</i> and <i>LL00</i> Scales	188
56. Powers of ϵ^{-1}	199
57. Roots of Numbers Less Than Unity	202
58. Reading beyond the Limits of the Log Log Scales	205
59. Natural Logarithms of Numbers	214
60. Unknown Exponents	219
61. Hyperbolic Functions	222

Chapter XII. SLIDE RULE SOLUTIONS OF QUADRATIC AND CUBIC EQUATIONS

62. Quadratic Equations	225
63. Cubic Equations	227

Chapter XIII. PROBLEMS FROM SCIENCE AND
ENGINEERING

64. Multiplication and Division	231
65. Squares and Square Roots, Cubes and Cube Roots	235
66. Trigonometry	238
67. Powers and Roots	240
68. Answers to Problems from Science and Engineering	242

Appendix

I. History of the Slide Rule	247
II. Exponential Relations	250
III. Logarithms	251
IV. Standard Numbers	258
V. Significant Figures and Slide Rule Limitations	259
VI. Trigonometric Relations	264
VII. Characteristic Method for Decimal Point Location	272
VIII. Slide Rule Adjustment and Care	274
IX. Types of Slide Rules	276
X. Bibliography	278
XI. Table of Four-Place Logarithms	279
XII. Table of Natural Trigonometric Functions for Angles in Degrees and Decimals	281
Index	285
