<i>Preface</i>	(iii)
Chapter 1. Interpolation Formulas for Spaces of Discrete Functions	(1)
1.1. Discrete Functions with One Index	(1)
1.2. Discrete Functions with Several Indices	(8)
1.3. Compound Discrete Functions	(16)
1.4. Inequalities of Difference Quotients	(23)
1.5. Fixed-Point Theorem of Continuous Mapping in a Finite Dimensional Space ..	(27)
Chapter 2. Nonlinear Parabolic Systems	(29)
2.1. Finite Difference Scheme	(29)
2.2. Estimation of Discrete Solutions	(36)
2.3. Convergence Behavior of Discrete Solutions	(48)
2.4. Convergence Theorems	(64)
2.5. Remarks	(72)
Chapter 3. Linear Parabolic Systems	(75)
3.1. Problems of Linear Parabolic Systems	(75)
3.2. Stability of Difference Scheme	(80)
3.3. Remarks on Regularity of Generalized Solutions	(92)
3.4. Speed of Convergence	(100)
Chapter 4. Systems of Schrödinger Type	(105)
4.1. Introduction	(105)
4.2. Schrödinger Systems of First Type	(108)
4.3. Schrödinger Systems of Second Type	(128)
Chapter 5. Systems of Ferro-Magnetic Chain	(141)
5.1. Introduction	(141)
5.2. Finite Difference Scheme	(144)
5.3. A priori Estimation	(147)

5.4. Convergence of Discrete Solutions	(154)
5.5. Global Weak Solutions	(158)
Chapter 6. Nonlinear Pseudo-Parabolic Systems	(159)
6.1. Introduction	(159)
6.2. Finite Difference Scheme	(161)
6.3. Convergence of Difference Scheme	(170)
6.4. Stability of Difference Scheme	(173)
Chapter 7. Nonlinear Pseudo-Hyperbolic Systems	(181)
7.1. Introduction	(181)
7.2. Finite Difference Scheme	(183)
7.3. Stability of Difference Scheme	(201)
Chapter 8. Systems of Nonlinear Wave Equations	(209)
8.1. Introduction	(209)
8.2. Finite Difference Scheme	(212)
8.3. A Priori Estimation	(217)
8.4. Convergence	(226)
8.5. Other Problems	(229)
Chapter 9. Systems of Nonlinear Wave Equations (Continued)	(233)
9.1. Introduction	(233)
9.2. A Priori Estimation	(236)
9.3. Solutions of Finite Slice Scheme	(244)
9.4. Solutions of the Original Problem	(246)
9.5. A Mixed Problem	(250)
References	(253)
