

Contents

Preface	vii
1. Introduction	1
2. Numerical Solution of Partial Differential Equations by Finite Difference Methods	23
3. Group Explicit Methods for Parabolic Equations	131
4. The Alternating Group Explicit (AGE) Methods for Parabolic Equations	185
5. The Alternating Group Explicit (AGE) Method for Boundary Value Problems	281
6. Group Explicit Methods for Hyperbolic Equations	319
7. The AGE Method for Elliptic Multidimensional Partial Differential Equations	371
8. Parallel Implementation of the Alternating Group Explicit (AGE) Method	435
References	455
Index	463
