

Epilepsia

The Journal of the International League Against Epilepsy

TABLE OF CONTENTS

Volume 49, Supplement 1, 2008

1

Introduction

The management of a first seizure—Still a major debate

Ettore Beghi

doi: 10.1111/j.1528-1167.2008.01441.x

2

Is the first seizure truly epileptic?

Stephen Perrig and Pierre Jallon

doi: 10.1111/j.1528-1167.2008.01442.x

8

First seizure definitions and worldwide incidence and mortality

W. Allen Hauser and Ettore Beghi

doi: 10.1111/j.1528-1167.2008.01443.x

13

Risk of recurrence after a first unprovoked seizure

Anne T. Berg

doi: 10.1111/j.1528-1167.2008.01444.x

19

First seizure: EEG and neuroimaging following an epileptic seizure

Bernd Pohlmann-Eden and Mark Newton

doi: 10.1111/j.1528-1167.2008.01445.x

26

The treatment of the first seizure: The benefits

David W. Chadwick

doi: 10.1111/j.1528-1167.2008.01446.x

29

The treatment of the first seizure: The risks

Emilio Perucca

doi: 10.1111/j.1528-1167.2008.01447.x

35

The socioeconomic, cultural, and emotional implications of starting or withholding treatment in a patient with a first seizure

Dominic C. Heaney, Gail S. Bell, and Josemir W. Sander

doi: 10.1111/j.1528-1167.2008.01448.x

TABLE OF CONTENTS

Volume 49, Supplement 1, 2008

40

Special considerations for a first seizure in childhood and adolescence

Peter Camfield and Carol Camfield

doi: 10.1111/j.1528-1167.2008.01449.x

45

Special problems: Adults and elderly

Linda J. Stephen and Martin J. Brodie

doi: 10.1111/j.1528-1167.2008.01450.x

50

An evidence-based approach to the first seizure

Samuel Wiebe, José F. Téllez-Zenteno, and Michelle Shapiro

doi: 10.1111/j.1528-1167.2008.01451.x

58

General conclusions and recommendations

Ettore Beghi

doi: 10.1111/j.1528-1167.2008.01452.x
