CONTENTS

PREFACE

CHAPTER 1. INTRODUCTION TO NONLINEAR WAVES

1.1 One dimensional linear equation ... 1

1.2 A basic nonlinear wave equation ... 2

1.3 Expansion Wave ... 7

1.4 Centred expansion wave ... 10

1.5 Breaking ... 12

CHAPTER 2. EXAMPLES

2.1 Traffic flow ... 17

2.2 Flood waves in rivers ... 20

2.3 Chemical exchange processes ... 21

2.4 Glaciers ... 22

2.5 Erosion ... 23

CHAPTER 3. SHOCK WAVES

3.1 Discontinuous shocks ... 24

3.2 Equal area rule ... 27

3.3 Asymptotic behavior ... 29

3.4 Shock structure ... 33

3.5 Burgers' equation ... 38

3.6 Chemical exchange processes; Thomas's equation ... 40

CHAPTER 4. A SECOND ORDER SYSTEM: SHALLOW WATER WAVES

4.1 The equations of shallow water theory ... 43

4.2 Simple waves ... 46

4.3 Method of characteristics for a system ... 50

4.4 Riemann's argument for simple waves ... 52

4.5 Hodograph transformation ... 54

CHAPTER 5. WAVES ON A SLOPING BEACH: SHALLOW WATER THEORY

5.1 Shallow water equations ... 57

5.2 Linearised equations ... 59

5.3 Linear theory for waves on a sloping beach ... 60

5.4 Nonlinear waves on a sloping beach ... 67

5.5 Bore on beach ... 76

5.6 Edge waves ... 76

5.7 Initial value problem and completeness ... 80

5.8 Weather fronts ... 82

CHAPTER 6. FULL THEORY OF WATER WAVES

6.1 Conservation equations and the boundary value problem ... 83

6.2 Linearised theory ... 89

CHAPTER 7. WAVES ON A SLOPING BEACH: FULL THEORY

7.1 Normal incidence ... 93

7.2 Shallow water approximation ... 106

7.3 Behavior as $\beta \to 0$ ... 108

7.4 General β ... 110

7.5 Oblique incidence and edge waves ... 111

7.6 Oblique incidence, $k < \lambda < \infty$ ... 115

7.7 Edge waves, $0 < \lambda < k$ ... 119

CHAPTER 8. EXACT SOLUTIONS FOR CERTAIN NONLINEAR EQUATIONS

8.1 Solitary waves ... 125

8.2 Perturbation approaches ... 127

8.3 Burgers' and Thomas's equations ... 128

8.4 Korteweg-de Vries equation ... 135

8.5 Discrete set of α's, interacting solitary waves ... 138

8.6 Continuous range; Marcenko integral equation ... 140

8.7 The series solution ... 143

8.8 Other equations ... 145

BIBLIOGRAPHY ... 147
