## CONTENTS

1.	The Equations of Fluid Dynamics		• • •	• • •	1
2.	Hyperbolic Systems .	••	• • •	• • •	10
3.	Discontinuous Solutions of Hyperbolic Systems - Sho				18
4,.	Energy Inequalities .	••	•••		31
5,	Boundary Conditions and Well-Pos	edness		•••	37
6.	Finite Difference Schemes, Stabili	ity		•••	47
7.	Finite Difference Schemes for the	Heat Equ	ation	•••	56
8.	Numerical Methods for the Advect Hyperbolic Systems	ion Equat	ion and		71
9.	Numerical Methods for the System Hydrodynamics - Lagrangian Coor			•••	100
0	Numerical Methods for the System Hydrodynamics – Eulerian Coordi		ions of	•••	116
11.	The 2-Dimensional Problem .	* •		• • •	127
