## I. Geophysical Fluid Dynamics

	Preface . . . . .	vii
J. PEDLOSKY	Geophysical Fluid Dynamics . . . . .	1
F. P. BRETHERTON	The General Linearised Theory of Wave Propagation . . . . .	61
D. J. BENNEY	Nonlinear Waves . . . . .	103
L. N. HOWARD	Rotating and Stratified Flows. . . . .	121
J. T. STUART	Stability Problems in Fluids . . . . .	139
G. F. CARRIER	The Dynamics of Tsunamis . . . . .	157
R. E. MEYER	Resonance of Unbounded Water Bodies On Planetary Atmospheres and Interiors	189
R. HIDE	Tropical Cyclogenesis and the Formation of the Intertropical Convergence Zone . . . . .	229
J. G. CHARNEY	Author Index . . . . .	355
	Subject Index . . . . .	369
		375

## 2. Inverse Problems, Dynamo Theory, and Tides

G. E. BACKUS	Inference from Inadequate and Inaccurate Data . . . . .	
F. GILBERT	Inverse Problems for the Earth's Normal Modes . . . . .	
P. H. ROBERTS	Dynamo Theory . . . . .	
W. V. R. MALKUS	Do Precessional Torques Cause Geomagnetism? . . . . .	
K. STEWARTSON	Planetary Waves . . . . .	
G. W. PLATZMAN	Ocean Tides and Related Waves . . . . .	
R. S. LINDZEN	Atmospheric Tides . . . . .	
	Author Index . . . . .	
	Subject Index . . . . .
