

# CONTENTS

Preface	vii
Introduction	ix
How to Use This Handbook	xi
<b>PART 1 Economy Analysis with Compound Interest</b>	<b>1-1</b>
Nomenclature	1-2
Abbreviations	1-3
<b>SECTION 1</b> Time Value of Money	1-5
<b>SECTION 2</b> Uniform and Regularly Varying Series	1-27
<b>SECTION 3</b> Continuous Compounding of Interest	1-79
<b>SECTION 4</b> Depreciation and Depletion	1-113
<b>SECTION 5</b> Cost Comparison of Alternative Methods	1-139
<b>SECTION 6</b> Investment Analysis	1-201
<b>PART 2 Statistics and Probability and Their Applications</b>	<b>2-1</b>
<b>SECTION 7</b> Basic Statistics	2-3
<b>SECTION 8</b> Probability	2-51
<b>SECTION 9</b> Statistical Inference	2-155
<b>SECTION 10</b> Reliability	2-257
<b>SECTION 11</b> Queuing Analysis	2-291
<b>SECTION 12</b> Decision Making on Basis of Probability	2-337
<b>SECTION 13</b> Analysis of Regression and Correlation	2-421
<b>SECTION 14</b> Analysis of Time Series	2-507
<b>PART 3 Techniques in Decision Making</b>	<b>3-1</b>
<b>SECTION 15</b> Linear Programming and Sensitivity Analysis	3-3
<b>SECTION 16</b> Project Scheduling with CPM and PERT	3-89
<b>SECTION 17</b> Economy Analysis under Nonlinear Relationships	3-135
<b>APPENDIXES</b>	
<b>APPENDIX A</b> Derivation of Compound-Interest Equations by Simple Logic	A-1
<b>APPENDIX B</b> Matrix Algebra	A-7
<b>APPENDIX C</b> Tables of Compound-Interest Factors for Discrete Compounding	A-21
<b>APPENDIX D</b> Table of Compound-Interest Factors for Continuous Compounding	A-55
<b>APPENDIX E</b> Tables of Probability and Sampling Distributions	A-61
<b>General References</b>	<b>R-1</b>
<b>Index follows General References</b>
