TABLE OF CONTENTS

PREFACE

J.BAUMEISTER: Deconvolution of Appearence Potential Spectra..... 1

H.BERGER; M.FEISTAUER: Mathematical Theory of the Finite Element Solutionof Transsonic Flow..... 15

D.COLTON: The Inverse Scattering Problem for the Electromagnetic Waves in an Inhomogeneous Medium..... 27

A.G.DALLAS: An Operator-Theoretic Finite-Difference Approximation-Scheme for Solution of Exterior Boundary-Value Problems for the Helmholtz Equation..... 37

H.-J. DOBNER: Inclusion Method for Fredholm Integral Equations with Applications to Boundary Value Problems in Potential Theory..... 57

G.A.GARY: Numerical Modeling Techniques for Extrapolating Solar Vector Magnetic Fields from the Photosphere..... 67

P.HÄHNER: A Uniqueness Theorem for the Maxwell Equations with L^2-Dirichlet Boundary Conditions..... 85

H.KRETZSCHMAR; K.-J.KREUL: Mathematical Mathods for Computation of Non-Newtonian Flow..... 97

G.KRISTENSSON: Direct and Inverse Scattering Problems in Dispersive Media - Green's Functions and Invariant Imbedding Techniques..... 105

D.LORTZ; R.MEYER-SPASCHE; P.PETROFF: A Global Analysis of Secondary Bifurcations in the Bénard Problem and the Relationship between the Bénard and Taylor Problems.... 121

E.MARTENSEN: Dipole Distributions in Equilibrium..... 143

P.A.MARTIN: Scattering of Elastic Waves by Inclusions with Thin Interface Layers..... 161

A.C.MCBRIDE: The Range and Invertibility of a Class of Mellin Multiplier Transforms..... 169

V.PLUSCHKE: L_∞- Estimates and Uniform Cnvergence of Rothe's Method for Quasilinear Parabolic Differential Equations..... 187

R.RAUTMANN: On Tests for Stability..... 201

P.M.VAN DEN BERG; A.P.M.ZWAMBORN; G.C.HSIAO; R.E.KLEINMAN: Iterative Solutions of First Kind Integral Equations..... 213

R.WEGMANN: Keplerian Dics around Magnetized Neutron Stars - A Free Boundary Problem..... 233

P.WERNER: A Green's Function Approach to the Potential Flow around Obstacles in a Two-Dimensional Channel..... 255

V.H.WESTON: The Reflection Operator for the Wave Equation in R^3..... 277

P.WILDE: Some Existence and Uniqueness Results for Problems Arising in Connection with the Incompressible Navier-Stokes Equations.... 297
