Contents

Translator's Introduction 1

Chapter 1 Introduction 9

Chapter 2 The Ray Method 11

2.1 The Starting Point: Formulas for the Scalar Case 11
2.2 The Eikonal Equation; Rays; Wave Fronts 12
2.3 Ray Coordinates 16
2.4 Fundamental Recurrence Formulas 20
2.5 Reflection of a Wave Given by a Ray Expansion 22

Chapter 3 The Caustic Problem 25

3.1 Ray Expansion in the Neighborhood of a Caustic 25
3.2 The Analytic Nature of the Eikonal for Incoming and Outgoing Waves Near a Caustic 27
3.3 Ray Series in (s,n) and (s,ν) Coordinates 29
3.4 The Field in a Boundary Layer Surrounding the Caustic 32
3.5 Fundamental Formulas 36

Chapter 4 Whispering Gallery and Creeping Waves 37

4.1 Whispering Gallery Waves 37
4.2 Whispering Gallery Quasimodes 47
4.3 Creeping Waves 51
4.4 The Friedlander-Keller Solution (Diffraction Rays) 53
4.5 Matching of Creeping Waves and Diffraction Rays 57

Chapter 5 Oscillations Concentrated in the Neighborhood of a Ray (Gaussian Beams) 60

5.1 Rays in the First Approximation 60
5.2 Derivation of the Boundary-Layer Equation 61
5.3 Solution of the System of Recurrence Equations for V_j 63

5.4 Stability of an Extremal Diameter of a Region 68
5.5 Quasimodes of the "Bouncing-Ball" Type in the First Approximation 73
5.6 Construction of Higher Approximations 78

Chapter 6 Shortwave Diffraction from a Smooth Convex Body 83

6.1 The Parabolic Equation Method 84
6.2 The Analytic Nature of the Functions $\tilde{V}_j$ and V_j 92
6.3 The Boundary Layer in the Deep Shadow Zone 94
6.4 Continuation of the Solution from the Vicinity of the Point C into the Transition Region 97
6.5 Analytic Representation of the Incident Wave in the Neighborhood of the Limiting Ray 101
6.6 System of Recurrence Equations for the Neighborhood of the Limiting Ray 104
6.7 Extension of the Transition Region Formulas into the Neighborhood of the Limiting Ray 107
6.8 Formulas for the Field in the Shadow and in the Penumbra 111

Chapter 7 The Problem of an Oscillating Point Source 117

7.1 The Ray Method for a Central Field of Rays 117
7.2 Expansion in the Transition Region 123
7.3 Expansions in the Neighborhood of the Origin 126

Chapter 8 Survey of Literature 130
