PREFACE		vii
CHAPTER 1	GRAVITY	1
1.1	Introduction	1
1.2	Gravity	1
CHAPTER 2	LONG AND SHORT RANGE FORCES: GRAVITATION AND MOLECULAR ATTRACTION AND REPULSION	7
2.1	Introduction	7
2.2	Gravitation	7
2.3	Basic Planar Concepts	9
2.4	Discrete Gravitation and Planetary Motion	11
2.5	The Generalized Newton's Method	13
2.6	An Orbit Example	14
2.7	Gravity Revisited	16
2.8	Classical Molecular Forces	18
2.9	Remark	19
CHAPTER 3	THE N-BODY PROBLEM	20
3.1	Introduction	20
3.2	The Three-Body Problem	20
3.3	Conservation of Energy	22
3.4	Solution of the Discrete Three-Body Problem	23
3.5	Center of Gravity	25
3.6	Conservation of Linear Momentum	27
3.7	Conservation of Angular Momentum	27
3.8	The N-Body Problem	30
3.9	Remark	31
CHAPTER 4	CONSERVATIVE MODELS	32
4.1	Introduction	32
4.2	The Solid State Building Block	32
4.3	Flow of Heat in a Bar	34
4.4	Oscillation of an Elastic Bar	36
4.5	Laminar and Turbulent Fluid Flows	39
CHAPTER 5	NONCONSERVATIVE MODELS	44
5.1	Introduction	44
5.2	Shock Waves	44
5.3	The Leap-Frog Formulas	48
5.4	The Stefan Problem	48
5.5	Evolution of Planetary Type Bodies	64
5.6	Free Surface Fluid Flow	92
5.7	Porous Flow	104

CHAPTER 6	FOUNDATIONAL CONCEPTS OF SPECIAL RELATIVITY	109
6.1	Introduction	109
6.2	Basic Concepts	109
6.3	Events and a Special Lorentz Transformation	110
6.4	A General Lorentz Transformation	112
CHAPTER 7	ARITHMETIC SPECIAL RELATIVISTIC MECHANICS IN ONE SPACE DIMENSION	115
7.1	Introduction	115
7.2	Proper Time	116
7.3	Velocity and Acceleration	117
7.4	Rest Mass and Momentum	119
7.5	The Dynamical Difference Equation	120
7.6	Energy	121
7.7	The Momentum-Energy Vector	123
7.8	Remarks	124
CHAPTER 8	ARITHMETIC SPECIAL RELATIVISTIC MECHANICS IN THREE SPACE DIMENSIONS	125
8.1	Introduction	125
8.2	Velocity, Acceleration, and Proper Time	125
8.3	Minkowski Space	128
8.4	4-Velocity and 4-Acceleration	129
8.5	Momentum and Energy	131
8.6	The Momentum-Energy 4-Vector	132
8.7	Dynamics	133
CHAPTER 9	LORENTZ INVARIANT COMPUTATIONS	136
9.1	Introduction	136
9.2	Invariant Computations	136
9.3	An Arithmetic, Newtonian Harmonic Oscillator	138
9.4	An Arithmetic, Relativistic Harmonic Oscillator	141
9.5	Motion of an Electric Charge in a Magnetic Field	145
APPENDIX 1	FORTRAN PROGRAM FOR GENERAL N-BODY INTERACTION	148
APPENDIX 2	FORTRAN PROGRAM FOR PLANETARY-TYPE EVOLUTION	154
