

# Contents

## PART I. CONTROL THEORY IN ECONOMIC SYSTEMS

1. Asset Pricing in an Economy with Production: A "Selective" Survey of Recent Work on Asset-Pricing Models . . . . . 5  
*William A. Brock*
2. Alternative Long-Run Goals and the Theory of the Firm: Why Profit Maximization May Be a Better Assumption Than You Think . . . 31  
*Hayne E. Leland*
3. Mathematical Optimization and Economic Behavior . . . . . 51  
*Sheldon S. L. Chang*
4. Performance Improvement of Uncertain Macroeconomic Systems . . 71  
*George Leitmann and Henry Y. Wan Jr.*
5. Stochastic Games, Oligopoly Theory, and Competitive Resource Allocation . . . . . 89  
*Martin Shubik and Matthew J. Sobel*

## PART II. DYNAMICAL THEORY OF THE ECONOMICS OF EXTRACTIVE NATURAL RESOURCES

6. Optimal Pricing, Use, and Exploration of Uncertain Natural Resource Stocks . . . . . 105  
*Kenneth J. Arrow and Sheldon S. L. Chang*
7. Restricted Access to Common-Property Fishery Resources: A Game-Theoretic Analysis . . . . . 117  
*Colin W. Clark*
8. Cartel and Oligopoly Pricing of Nonreplenishable Natural Resources 133  
*Tracy R. Lewis and Richard Schmalensee*
9. Optimum Extraction of an Exhaustible Resource: A Mathematical Analysis . . . . . 157  
*Pan-Tai Liu*
10. Royalties and the Extraction Rate of an Exhaustible Resource. . . 169  
*Jon G. Sutinen*

PART III. LARGE-SCALE SYSTEMS AND  
DECENTRALIZED CONTROL

11. Dynamics and Control of a System Composed of a Large Number of Similar Subsystems . . . . .	183
<i>Masanao Aoki</i>	
12. Hierarchical Decisionmaking under Uncertainty . . . . .	205
<i>Tamer Başar</i>	
13. A Game-Theoretic Approach to Bureaucratic Behavior . . . . .	223
<i>Dagobert L. Brito and Michael D. Intriligator</i>	
14. Optimal Stabilization Policies for Decentralized Macroeconomic Systems with Conflicting Targets . . . . .	237
<i>Hajime Myoken</i>	
15. A Minimum Principle for Decentralized Stochastic Control Problems	253
<i>Pravin Varaiya and Jean Walrand</i>	
INDEX . . . . .	267
