

CONTENTS

i. GENERAL MODELLING CONSIDERATIONS

MURCHLAND, John D., "Traffic Equilibrium Methods: The Structure of Model Research"	1
WIGAN, Mark R., "Equilibrium Models in Use: Practical Problems and Proposals for Transport Planning"	11

ii. THEORETICAL STUDIES

HALL, Michael A. and PETERSON, Elmor L., "Highway- Traffic Equilibria Analysed Via Geometric Programming".....	53
DAFERMOS, Stella C., "Integrated Equilibrium Flow Models for Transportation Planning"	106
BECKMANN, Martin J., "Equilibrium Versus Optimum in Public Transportation Systems"	119
JENSEN, Arne, "Statistical Equilibrium"	132
HAMERSLAG, R., "Transportation Model with Elastic Constraints"	147

iii. COMPUTATIONAL METHODS

NGUYEN, Sang, "A Unified Approach to Equilibrium Methods for Traffic Assignment"	148
RUITER, Earl R., "Network Equilibrium Capabilities for the UMTA Transportation Planning System".	183
NESTLE, Richard E., "Application of Error Measures to Traffic Assignment Results".	200
EVANS, Suzanne P., "Some Models for Combining the Trip Distribution and Traffic Assignment Stages in the Transport Planning Process"	201
BURRELL, J.E., "Multiple Route Assignment: A Comparison of Two Methods"	229

iv. DYNAMIC TRAFFIC ASSIGNMENT METHODS

YAGAR, Sam, "Emulation of Dynamic Equilibrium in Traffic Networks"	240
MERCHANT, Deepak K. and NEMHAUSER, George L., "A Model and an Algorithm for the Dynamic Traffic Assignment Problem"	265

v.	<u>TRAFFIC EQUILIBRIUM AND TRAFFIC CONTROL</u>	
	GARTNER, Nathan, "Area Traffic Control and Network Equilibrium"	274
	ORTHLIEB, Maxence P. and MAY, Adolf D., "Evaluation of Freeway Corridor Assignment Equilibria"	298
vi.	<u>MODEL COMPONENTS</u>	
	MORLOK, Edward K., "Supply Functions for Public Transport: Initial Concepts and Models"	322
	GAUDRY, Marc, "A Note on the Economic Interpretation of Delay Functions in Assignment Problems"	368
vii.	<u>APPLICATIONS OF TRAFFIC EQUILIBRIUM METHODS</u>	
	FLORIAN, Michael and NGUYEN, Sang, "Recent Experience with Equilibrium Methods for the Study of a Congested Urban Area"	382
	VAN VLIET, Dirck, "The Choice of Assignment Techniques for Large Networks"	396
	LEBLANC, Larry J. and MORLOK, Edward K., "An Analysis and Comparison of Behavioral Assumptions in Traffic Assignment"	413
	JUDGE, E.J., "An Investigation of Some Problems in the Calibration of Traffic Assignments"	426
	GENEST, Bernard-André, BURDEN, David, MUGUET, Jacques and KARDICALI, Esat, "The Use of Traffic Equilibrium Based Problem-Oriented Language for a Governmental Feasibility Study"	427
