1 Gendered Mobilities: Towards an Holistic Understanding
   Tim Cresswell and Tanu Priya Uteng
   1

PART 1: DIALOGICAL REFLECTIONS

2 Mobility as Capability
   David Kronlid
   15

3 Embodying the Space Between: Unmapping Writing about
   Racialised and Gendered Mobilities
   Sheela Subramanian
   35

4 Motherhood, Risk and Everyday Mobilities
   Lesley Murray
   47

5 ‘Mobile Belonging’: Exploring Transnational Feminist Theory
   and Online Connectivity
   Michaela Fay
   65

6 Gendering Mobility: Insights into the Construction of Spatial Concepts
   Nadine Cattan
   83

7 The Culture of Automobility: How Interacting Drivers Relate to
   Legal Standards and to Each Other in Traffic
   Anette Jerup Jørgensen
   99

PART 2: HOW AND WHY ARE MOBILITIES GENDERED?

8 Gender Still Matters: Mobility Aspirations among European
   Scientists Working Abroad
   Elisabeth Scheibelhofer
   115
Gendered Mobilities

9 'I’m More Sexy Here': Erotic Subjectivities of Female Tourists in the ‘Sexual Paradise’ of the Costa Rican Caribbean
Susan Frohlick 129

10 A Spatial Exploration of the Accessibility of Low-Income Women: Chengdu, China and Chennai, India
Sumeeta Srinivasan 143

11 Gendered Mobilities in Developing Countries: The Case of (Urban) Uganda
Nite Tanzarn 159

12 Gender Differences in the Influences of Urban Structure on Daily Travel
Petter Naess 173

13 Daily Mobility of Men and Women – A Barometer of Gender Equality?
Randi Hjorthol 193

PART 3: SEEKING GROUNDS FOR FUTURE POLICIES

14 Gender and the Social Usage of Mobile Technologies: From Information Society Policies to Everyday Practices
Tommi Inkinen 213

15 Gender Mainstreaming in Swedish Transport Policy
Merritt Polk 229

16 Are We There Yet? Women and Transport Revisited
Clara Greed 243

EPILOGUE

17 Gendered Mobilities: Epilogue
Mimi Sheller 257

List of Tables

10.1 Mode choice by gender for trips in the Chengdu and Chennai sample 149
10.2 Travel characteristics by gender for trips in the Chengdu and Chennai sample 149
10.3 Binary mode choice of motorised vehicles (bus or personal vehicle) in the Chengdu and Chennai trips sample 153

11.1 Purpose of travel during the week/weekend by gender 161
11.2 Responsibility for travelling with children 162
11.3 Ownership of means of transport by gender 162
11.4 Most frequent means of travel 163
11.5 Proportion of income spent on transport 164
11.6 General mobility constraints 166
11.7 Ranking of mobility constraints by means of transport and gender 166
11.8 Missed journeys 168
11.9 Reasons for the ‘missed’ journeys 168
11.10 Suggestions for addressing mobility constraints 169

12.1 Results from a multivariate analysis of the influence of various independent variables on the daily one-way commuting distance (km) of workforce-participating respondents 181
12.2 Results from a multivariate analysis of the influence of various independent variables on the total distance travelled (km) over the weekdays (Monday–Friday) among workforce-participating respondents 188

13.1 Time use per day for men and women 25–44 years (Norway 1971, 1980, 1990, 2000, hours and minutes) 197
13.2 Driving licence and always access to a car among men and women in different age groups (Norway, 1992 and 2005, percent) 199
13.3 Number of trips per day for different purposes for men and women (Norway, 1992 and 2005) 200
13.4 Transport mode on everyday travel for men and women (1992 and 2005, percent) 201
13.5 Car use as a driver on everyday travel for men and women (1992 and 2005, percent, differences between men and women in parenthesis) 201
13.6 Car use as a driver for various trip purposes for men and women (1992 and 2001, percent, differences between men and women in parenthesis) 202
13.7 Use of car on chauffeuring trips (unpaid care work) for men and women aged 18 or older (1992 and 2001, logistic regression) 203
13.8 Use of car as a driver on work trips for men and women with a driving licence aged 18 years or older (1992 and 2001, logistic regression) 204

14.1 Frequencies of gender and social welfare related terms with selected benchmark terms in Finnish information society strategy for the years 2007–2015 219
14.2 Selected claims from the data that have highly significant chi-square value 222
