Summary of report	viii
1. Primary survey No. 3	
1.1 The 1980 survey	1
1.7 The assessment framework	1
1.11 The survey assessments	2
1.14 Features of the report	2
2. The practical tests	
2.1 The practical survey	5
2.3 The administration: the design of the 1980 practical survey	7
2.12 Selected results of the 1980 survey: area	9
place value	18
car trip	23
2.82 Conclusions	29
3. The written tests of concepts and skills: analyses of item clusters	
3.1 The 1980 survey tests	31
3.4 Coordinates, the compass and turns	32
3.19 Division	39
3.38 Area and perimeter	46
3.55 Interpretation and construction of visual representation	57
3.65 Conclusions	68
4. The written tests of concepts and skills: sub-category scores and background variables	
4.1 Written tests: the sub-category scores	70
4.5 The background variables	71
4.39 Conclusions	86
5. Attitudes to mathematics	
5.1 Introduction	88
5.4 Description of questionnaire	89
5.12 The sample and administration	90
5.14 Attitudes towards mathematics: the scales	91
5.18 Attitudes towards mathematics: topics topic names	92
topic examples	92

	<i>Page</i>
5.29 Relationships among measures of attitude and performance	95
5.33 Conclusions	97
6. Problems, applications, investigations: a review of development	
6.1 Background	98
6.7 The development of written test items	99
6.13 The development of practical test items	101
6.62 Conclusions	111
7. The pattern of results: a review of three surveys	
7.1 The pattern of results	114
7.3 Item clusters	114
7.15 The sub-categories	116
7.18 Differences between regions	117
7.21 Sex differences	118
7.25 Other background variables	119
7.27 Further investigations and future reports	120
Appendices	
1. The survey sample and data collection	121
2. Statistical significance	127
3. The development of the practical tests	129
A3.1 Practical testers in the 1980 survey	129
A3.2 Teachers assisting with development	130
A3.3 Videotapes of pupil interviews	130
A3.4 Schools assisting with development	131
4 Development of the assessment of problem solving	132
A4.1 Participants in APU Conference (1979): problems, applications and investigations	132
A4.2 The teachers groups (Sheffield, Belfast and Londonderry)	132
5 Consistencies in the results of 3 surveys: Appendix to Chapter 7	135
6 Membership of groups	
A6.1 Monitoring Team (NFER)	137
A6.2 APU Steering Group on Mathematics	137
A6.3 Monitoring Services Unit (NFER)	137
A6.4 Monitoring Group (NFER)	137
A6.5 APU Consultative Committee	138
7 Note on the APU	140
