PREFACE.....	iii
SPECIAL INDEX OF SYMBOLS.....	vii
I. INTRODUCTION.....	1
Carroll V. Newsom, <i>President, New York University, New York, New York</i>	
II. THE CONCEPT OF NUMBER.....	7
Ivan Niven, <i>Professor of Mathematics, University of Oregon, Eugene, Oregon</i>	
III. OPERATING WITH SETS.....	36
E. J. McShane, <i>Professor of Mathematics, University of Virginia, Charlottesville, Virginia</i>	
IV. DEDUCTIVE METHODS IN MATHEMATICS.....	65
Carl B. Allendoerfer, <i>Professor of Mathematics, University of Washington, Seattle, Washington</i>	
V. ALGEBRA.....	100
Saunders MacLane, <i>Professor of Mathematics, University of Chicago, Chicago, Illinois</i>	
VI. GEOMETRIC VECTOR ANALYSIS AND THE CONCEPT OF VECTOR SPACE.....	145
Walter Prenowitz, <i>Professor of Mathematics, Brooklyn College, Brooklyn, New York</i>	
VII. LIMITS.....	200
John F. Randolph, <i>Professor of Mathematics, University of Rochester, Rochester, New York</i>	
VIII. FUNCTIONS.....	241
Rudolph E. Langer, <i>Professor of Mathematics, University of Wisconsin, Madison, Wisconsin</i>	
IX. ORIGINS AND DEVELOPMENT OF CONCEPTS OF GEOMETRY..	273
S. H. Gould, <i>Professor of Mathematics, Williams College, Williamstown, Massachusetts</i>	
X. POINT SET TOPOLOGY.....	306
R. H. Bing, <i>Professor of Mathematics, University of Wisconsin, Madison, Wisconsin</i>	
XI. THE THEORY OF PROBABILITY.....	336
Herbert Robbins, <i>Professor of Mathematical Statistics, Columbia University, New York, New York</i>	

XII. COMPUTING MACHINES AND AUTOMATIC DECISIONS.....	372
Charles B. Tompkins, <i>Director, Numerical Analysis Research, University of California, Los Angeles, Cali- fornia</i>	
XIII. IMPLICATIONS FOR THE MATHEMATICS CURRICULUM.....	404
Bruce E. Meserve, <i>Associate Professor of Mathematics, Montclair State Teachers College, Montclair, New Jersey</i>	
INDEX.....	429
