Foreword	page 7
Preface	9
<i>Part 1. Mixed-ability grouping: characteristics and current practice</i>	11
I Mixed-ability grouping: the background	13
Types of teaching group	13
Grouping by ability	14
Mixed-ability grouping	16
Teaching mixed-ability classes	17
II Mathematics teaching	19
Aims of mathematics teaching	19
Mathematical learning	20
Characteristics of good mathematics teaching	20
III Mathematics and mixed-ability grouping	27
The nature of mathematics	27
Changing views of mathematics	28
Variation in pupils' attainment	29
Demands on the teacher	30
Design of suitable materials	30
IV Some teaching models and current practices	32
Teaching models	32
Exercises and exploratory tasks	35
The relationship between teaching models, exercises and exploratory tasks	36
A comparison of different teaching models	37
Classroom practice	40
Summary	48

V	Results of the inquiry and recommendations	50
	Findings	50
	Recommendations	62
	References and notes	65
	<i>Part 2. Mixed-ability teaching in action</i>	67
VI	The working group's inquiry	69
	Questions put to teachers	69
	Observations in the classroom	74
VII	Three case studies	78
	School A	78
	School B	96
	School C	105
VIII	Materials in use	130
	Acknowledgements	143
	Members of the working group	146
