<i>Reader's Guide</i>	xxix

Part I Software Product Line Fundamentals 1

1	Basic Ideas and Terms	5
1.1	What Is a Software Product Line?	5
1.2	What Software Product Lines Are Not	11
1.2.1	Fortuitous Small-Grained Reuse	11
1.2.2	Single-System Development with Reuse	12
1.2.3	Just Component-Based Development	12
1.2.4	Just a Reconfigurable Architecture	12
1.2.5	Releases and Versions of Single Products	13
1.2.6	Just a Set of Technical Standards	13
1.3	A Note on Terminology	13
1.4	For Further Reading	15
1.5	Discussion Questions	15
2	Benefits	17
2.1	Organizational Benefits	17
2.2	Individual Benefits	20

- 2.3 Benefits versus Costs **23**
 - 2.4 For Further Reading **27**
 - 2.5 Discussion Questions **27**

 - 3 The Three Essential Activities 29**
 - 3.1 What Are the Essential Activities? **29**
 - 3.2 Core Asset Development **31**
 - 3.3 Product Development **37**
 - 3.4 Management **45**
 - 3.5 All Three Together **49**
 - 3.6 For Further Reading **49**
 - 3.7 Discussion Questions **50**
-

Part II Software Product Line Practice Areas 51

- Describing the Practice Areas **52**
- Starting versus Running a Product Line **53**
- Organizing the Practice Areas **54**

- 4 Software Engineering Practice Areas 55**
- 4.1 Architecture Definition **57**
 - 4.1.1 Aspects Peculiar to Product Lines **64**
 - 4.1.2 Application to Core Asset Development **67**
 - 4.1.3 Application to Product Development **67**
 - 4.1.4 Specific Practices **67**
 - 4.1.5 Practice Risks **71**
 - 4.1.6 For Further Reading **74**
 - 4.1.7 Discussion Questions **75**
- 4.2 Architecture Evaluation **76**
 - 4.2.1 Aspects Peculiar to Product Lines **77**
 - 4.2.2 Application to Core Asset Development **78**
 - 4.2.3 Application to Product Development **78**
 - 4.2.4 Specific Practices **79**
 - 4.2.5 Practice Risks **81**
 - 4.2.6 For Further Reading **82**
 - 4.2.7 Discussion Questions **83**
- 4.3 Component Development **83**
 - 4.3.1 Aspects Peculiar to Product Lines **85**
 - 4.3.2 Application to Core Asset Development **85**

	4.3.3	Application to Product Development	85
	4.3.4	Specific Practices	87
	4.3.5	Practice Risks	89
	4.3.6	For Further Reading	90
	4.3.7	Discussion Questions	90
4.4		COTS Utilization	90
	4.4.1	Aspects Peculiar to Product Lines	93
	4.4.2	Application to Core Asset Development	94
	4.4.3	Application to Product Development	95
	4.4.4	Specific Practices	95
	4.4.5	Practice Risks	97
	4.4.6	For Further Reading	98
	4.4.7	Discussion Questions	98
4.5		Mining Existing Assets	99
	4.5.1	Aspects Peculiar to Product Lines	101
	4.5.2	Application to Core Asset Development	102
	4.5.3	Application to Product Development	103
	4.5.4	Specific Practices	103
	4.5.5	Practice Risks	107
	4.5.6	Discussion Questions	108
4.6		Requirements Engineering	109
	4.6.1	Aspects Peculiar to Product Lines	111
	4.6.2	Application to Core Asset Development	112
	4.6.3	Application to Product Development	113
	4.6.4	Specific Practices	114
	4.6.5	Practice Risks	115
	4.6.6	For Further Reading	116
	4.6.7	Discussion Questions	116
4.7		Software System Integration	117
	4.7.1	Aspects Peculiar to Product Lines	118
	4.7.2	Application to Core Asset Development	122
	4.7.3	Application to Product Development	122
	4.7.4	Specific Practices	122
	4.7.5	Practice Risks	124
	4.7.6	For Further Reading	124
	4.7.7	Discussion Questions	125
4.8		Testing	125
	4.8.1	Aspects Peculiar to Product Lines	130
	4.8.2	Application to Core Asset Development	132

4.8.3	Application to Product Development	134
4.8.4	Specific Practices	135
4.8.5	Practice Risks	135
4.8.6	For Further Reading	136
4.8.7	Discussion Questions	137
4.9	Understanding Relevant Domains	137
4.9.1	Aspects Peculiar to Product Lines	139
4.9.2	Application to Core Asset Development	141
4.9.3	Application to Product Development	143
4.9.4	Specific Practices	144
4.9.5	Practice Risks	147
4.9.6	For Further Reading	149
4.9.7	Discussion Questions	149
5	Technical Management Practice Areas	151
5.1	Configuration Management	152
5.1.1	Aspects Peculiar to Product Lines	153
5.1.2	Application to Core Asset Development	156
5.1.3	Application to Product Development	157
5.1.4	Specific Practices	157
5.1.5	Practice Risks	159
5.1.6	For Further Reading	159
5.1.7	Discussion Questions	160
5.2	Data Collection, Metrics, and Tracking	160
5.2.1	Aspects Peculiar to Product Lines	161
5.2.2	Application to Core Asset Development	162
5.2.3	Application to Product Development	163
5.2.4	Specific Practices	164
5.2.5	Practice Risks	165
5.2.6	For Further Reading	166
5.2.7	Discussion Questions	166
5.3	Make/Buy/Mine/Commission Analysis	167
5.3.1	Aspects Peculiar to Product Lines	169
5.3.2	Application to Core Asset Development	170
5.3.3	Application to Product Development	170
5.3.4	Specific Practices	171
5.3.5	Practice Risks	173
5.3.6	For Further Reading	174
5.3.7	Discussion Questions	174

5.4	Process Definition	175
5.4.1	Aspects Peculiar to Product Lines	176
5.4.2	Application to Core Asset Development	177
5.4.3	Application to Product Development	177
5.4.4	Specific Practices	177
5.4.5	Practice Risks	178
5.4.6	For Further Reading	179
5.4.7	Discussion Questions	179
5.5	Scoping	179
5.5.1	Aspects Peculiar to Product Lines	180
5.5.2	Application to Core Asset Development	185
5.5.3	Application to Product Development	185
5.5.4	Specific Practices	186
5.5.5	Practice Risks	191
5.5.6	For Further Reading	192
5.5.7	Discussion Questions	193
5.6	Technical Planning	193
5.6.1	Aspects Peculiar to Product Lines	195
5.6.2	Application to Core Asset Development	197
5.6.3	Application to Product Development	198
5.6.4	Specific Practices	199
5.6.5	Practice Risks	200
5.6.6	Discussion Questions	201
5.7	Technical Risk Management	201
5.7.1	Aspects Peculiar to Product Lines	203
5.7.2	Application to Core Asset Development	204
5.7.3	Application to Product Development	204
5.7.4	Specific Practices	204
5.7.5	Practice Risks	206
5.7.6	For Further Reading	206
5.7.7	Discussion Questions	206
5.8	Tool Support	207
5.8.1	Aspects Peculiar to Product Lines	208
5.8.2	Application to Core Asset Development	213
5.8.3	Application to Product Development	214
5.8.4	Specific Practices	214
5.8.5	Practice Risks	215
5.8.6	For Further Reading	216
5.8.7	Discussion Questions	216

6	Organizational Management Practice Areas	219
6.1	Building a Business Case	220
6.1.1	Aspects Peculiar to Product Lines	222
6.1.2	Application to Core Asset Development	225
6.1.3	Application to Product Development	230
6.1.4	Specific Practices	230
6.1.5	Practice Risks	232
6.1.6	For Further Reading	234
6.1.7	Discussion Questions	235
6.2	Customer Interface Management	235
6.2.1	Aspects Peculiar to Product Lines	236
6.2.2	Application to Core Asset Development	240
6.2.3	Application to Product Development	241
6.2.4	Specific Practices	243
6.2.5	Practice Risks	245
6.2.6	Discussion Questions	246
6.3	Developing an Acquisition Strategy	247
6.3.1	Aspects Peculiar to Product Lines	248
6.3.2	Application to Core Asset Development	250
6.3.3	Application to Product Development	250
6.3.4	Specific Practices	251
6.3.5	Practice Risks	252
6.3.6	For Further Reading	254
6.3.7	Discussion Questions	254
6.4	Funding	255
6.4.1	Aspects Peculiar to Product Lines	255
6.4.2	Application to Core Asset Development	256
6.4.3	Application to Product Development	257
6.4.4	Specific Practices	258
6.4.5	Practice Risks	261
6.4.6	Discussion Questions	262
6.5	Launching and Institutionalizing	262
6.5.1	Aspects Peculiar to Product Lines	263
6.5.2	Application to Core Asset Development	264
6.5.3	Application to Product Development	268
6.5.4	Specific Practices	272
6.5.5	Practice Risks	281
6.5.6	Discussion Questions	283

6.6	Market Analysis	284
6.6.1	Aspects Peculiar to Product Lines	285
6.6.2	Application to Core Asset Development	286
6.6.3	Application to Product Development	286
6.6.4	Specific Practices	287
6.6.5	Practice Risks	289
6.6.6	For Further Reading	289
6.6.7	Discussion Questions	290
6.7	Operations	290
6.7.1	Aspects Peculiar to Product Lines	291
6.7.2	Application to Core Asset Development	291
6.7.3	Application to Product Development	292
6.7.4	Specific Practices	292
6.7.5	Practice Risks	300
6.7.6	For Further Reading	302
6.7.7	Discussion Questions	302
6.8	Organizational Planning	302
6.8.1	Aspects Peculiar to Product Lines	303
6.8.2	Application to Core Asset Development	304
6.8.3	Application to Product Development	305
6.8.4	Specific Practices	305
6.8.5	Practice Risks	305
6.8.6	Discussion Questions	305
6.9	Organizational Risk Management	306
6.9.1	Aspects Peculiar to Product Lines	308
6.9.2	Application to Core Asset Development	309
6.9.3	Application to Product Development	310
6.9.4	Specific Practices	310
6.9.5	Practice Risks	311
6.9.6	For Further Reading	311
6.9.7	Discussion Questions	312
6.10	Structuring the Organization	312
6.10.1	Aspects Peculiar to Product Lines	313
6.10.2	Application to Core Asset Development	314
6.10.3	Application to Product Development	316
6.10.4	Specific Practices	316
6.10.5	Practice Risks	326
6.10.6	Discussion Questions	327

6.11	Technology Forecasting	328
6.11.1	Aspects Peculiar to Product Lines	329
6.11.2	Application to Core Asset Development	329
6.11.3	Application to Product Development	330
6.11.4	Specific Practices	330
6.11.5	Practice Risks	332
6.11.6	For Further Reading	332
6.11.7	Discussion Questions	333
6.12	Training	333
6.12.1	Aspects Peculiar to Product Lines	333
6.12.2	Application to Core Asset Development	335
6.12.3	Application to Product Development	336
6.12.4	Specific Practices	336
6.12.5	Practice Risks	342
6.12.6	For Further Reading	342
6.12.7	Discussion Questions	343

Part III Putting the Practice Areas into Action 345

7	Software Product Line Practice Patterns	349
7.1	The Value of Patterns	349
7.2	Software Product Line Practice Pattern Descriptions	352
7.3	The Curriculum Pattern	354
7.4	The Essentials Coverage Pattern	357
7.5	Each Asset Pattern	360
7.6	What to Build Pattern	365
7.7	Product Parts Pattern	369
7.8	Assembly Line Pattern	374
7.9	Monitor Pattern	376
7.10	Product Builder Pattern	378
7.11	Cold Start Pattern	381
7.12	In Motion Pattern	384
7.13	Process Pattern	386
7.14	Factory Pattern	393
7.15	Other Patterns	395
7.16	Practice Area Coverage	396
7.17	Discussion Questions	396

- 8 Product Line Technical Probe 359**
 - 8.1 What Is the Product Line Technical Probe? **399**
 - 8.2 Probe Interview Questions **401**
 - 8.3 Probe Participants **404**
 - 8.4 Probe Process **405**
 - 8.5 Using the Probe Results **414**
 - 8.6 Conducting a Mini Self-Probe **414**
 - 8.7 Discussion Questions **415**

- 9 Cummins Inc.: Embracing the Future 417**
 - 9.1 Prologue **417**
 - 9.2 Company History **418**
 - 9.3 A Product Line of Engine Software **421**
 - 9.4 Getting off the Ground **423**
 - 9.5 An Organization Structured for Cooperation **426**
 - 9.6 Running the Product Line **430**
 - 9.7 Results **431**
 - 9.8 Lessons Learned **434**
 - 9.9 Epilogue **438**
 - 9.10 Practice Area Compendium **440**
 - 9.11 For Further Reading **442**
 - 9.12 Discussion Questions **442**

- 10 Control Channel Toolkit: A Software Product Line That Controls Satellites with Shalom Cohen and Patrick Donohoe 443**
 - 10.1 Contextual Background **444**
 - 10.1.1 Organizational Profiles **445**
 - 10.1.2 Project History **447**
 - 10.1.3 Control Channels **448**
 - 10.2 Launching CCT **450**
 - 10.2.1 Developing a Business Case for CCT **451**
 - 10.2.2 Developing the Acquisition Strategy and Funding CCT **451**
 - 10.2.3 Structuring the CCT Organization **452**
 - 10.2.4 Organizational and Technical Planning **454**
 - 10.2.5 Operations **454**
 - 10.3 Engineering the CCT Core Assets **457**
 - 10.3.1 Domain Analysis **458**
 - 10.3.2 Architecture **460**

10.3.3	Component Engineering	468
10.3.4	Testing: Application and Test Engineering	469
10.3.5	Sustainment Engineering: Product Line Evolution	471
10.3.6	Documentation	472
10.4	Managing the CCT Effort	473
10.5	Early Benefits from CCT	474
10.5.1	First CCT Product	475
10.5.2	Benefits beyond CCT Products	475
10.6	Lessons and Issues	476
10.6.1	Tool Support Is Inadequate	477
10.6.2	Domain Analysis Documentation Is Important	477
10.6.3	An Early Architecture Focus Is Best	477
10.6.4	Product Builders Need More Support	478
10.6.5	CCT Users Need Reuse Metrics	479
10.6.6	It Pays to Be Flexible, and Cross-Unit Teams Work	480
10.6.7	A Real Product Is a Benefit	481
10.7	Summary	481
10.8	For Further Reading	482
10.9	Discussion Questions	483
11	Successful Software Product Line Development in a Small Organization	485
11.1	Introduction	485
11.2	The Early Years	487
11.3	The MERGER Software Product Line	493
11.4	Market Maker Software Product Line Practices	496
11.4.1	Architecture Definition	496
11.4.2	Component Development	498
11.4.3	Structuring (and Staffing) the Organization	499
11.4.4	Testing	500
11.4.5	Data Collection and Metrics	501
11.4.6	Launching and Institutionalizing the Product Line	501
11.4.7	Understanding the Market	502
11.4.8	Technology Forecasting	503
11.5	A Few Observations	504
11.5.1	Effects of Company Culture	504
11.5.2	Cost Issues	505
11.5.3	The Customer Paradox	506
11.5.4	Tool Support	506
11.6	Lessons Learned	507

11.6.1	Drawbacks	507
11.7	Conclusions: Software Product Lines in Small Organizations	508
11.8	For Further Reading	511
11.9	Discussion Questions	511
12	Conclusions: Practices, Patterns, and Payoffs	513
12.1	The Practices	514
12.2	The Patterns	515
12.3	The Success Factors	516
12.4	The Payoff	518
12.5	Finale	518
