X. From Music to Visual Art and Back	115
XI. Summary and Prospect	123
XII. Do It Yourself	129
Software Listings	134–137
Appendix	138
Bibliography	220
Filmography	225
Index	227

Illustrations

1. Elemental differential dynamics	50
2. Line plot of 12 sine curves	52
3. TD and RD arrays	56–57

* The chapters that teach digital harmony.

4. TD and RD arrays, different values	58–59	
5. TD and RD arrays, one whole number step	70–71	
6. Selected frames, <i>Matrix III</i>	75	
7. Selected frames, <i>Matrix</i>	76	
8. Selected frames, <i>Matrix</i>	77	
9. Selected frames, <i>Matrix III</i>	78	
10. Selected frames, <i>Circles</i>	79	
11. Selected frames, <i>Circles</i>	79	
12. Color pixel image by Information International Inc.		80
13. Schematic of basic modulo action	98	
14. Schematic of first 360' cycles	99	
15. Selected frames, <i>Arabesque</i> section one		100
16. Selected frames, <i>Arabesque</i> section two		102
17. Selected frames, <i>Arabesque</i> section three		104–105
18. Selected frames, <i>Arabesque</i> section four		106
19. Selected frames, <i>Arabesque</i> section six		108
20. Selected frames, <i>Arabesque</i> section seven		110
21. Selected frames, <i>Arabesque</i> border		112
