	Introduction	1
1	A conceptual framework for policy analysis and evaluation	6
	1.1 Policymaking: A logical model	6
	1.1.1 Logic of action	6
	1.1.2 Context of policy action	8
	1.1.3 Connecting policy action and population's behavior	9
	1.2 Policy rationality	11
	1.2.1 Rationality of policymaking	12
	1.2.2 Rationality of health promotion	14
	1.3 Policy impact and evaluation	20
	1.3.1 Definition of impact	20
	1.3.2 Determinants of impact	21
	1.3.3 Measuring impact	23
	1.3.4 Evaluation practices	25
2	The European health promotion context	26
3	Design of the MAREPS-Study	37
	3.1 Policymaker survey	37
	3.2 Population survey	46
4	Policy rationality	54
	4.1 Empirical findings I: Rationality of policymaking	54
	4.2 Empirical findings II: Rationality of health promotion policy	59
5	Impact of health promotion policy	71
	5.1 Empirical findings I: The policymakers' perspective	71
	5.1.1 Perception of policy determinants	74
	5.1.2 Determinants of policy impact	82
	5.2 Empirical findings II: The populations' perspective	90
	5.2.1 Perception of policy	90
	5.2.2 Determinants of policy-related behavior and health	107
6	Policy evaluation practices and instruments	142
	6.1 Empirical findings: Evaluation practices	142
	6.2 Instruments for health promotion policy evaluation: marepScales	149
