

# CONTENTS

## **PART I INTRODUCTION TO POCKET CALCULATOR ANALYSIS**

- |   |   |    |
|---|---|----|
| 1 | The Pocket Calculator                                     | 3  |
| 2 | Difference Tables, Data Analysis, and Function Evaluation | 61 |

## **PART II NUMERICAL EVALUATION OF FUNCTIONS ON THE POCKET CALCULATOR**

- |   |  |     |
|---|--|-----|
| 3 | Elementary Analysis with the Pocket Calculator | 89  |
| 4 | Numerical Evaluation of Advanced Functions     | 122 |

## **PART III ADVANCED ANALYSIS ON THE POCKET CALCULATOR**

- |    |  |     |
|----|--|-----|
| 5  | Fourier Analysis   | 147 |
| 6  | Numerical Integration  | 162 |
| 7  | Linear Systems Simulation  | 188 |
| 8  | Chebyshev and Rational Polynomial Approximations for Analytic Substitution | 206 |
| 9  | Determining the Roots of a Function  | 232 |
| 10 | Statistics and Probability   | 250 |

**PART IV THE PROGRAMMABLE POCKET CALCULATOR**

- |    |   |     |
|----|---|-----|
| 11 | An Introduction to Calculator Programming | 297 |
| 12 | The Programmable Pocket Calculator        | 308 |
| 13 | Optimization                              | 325 |

**PART V FINANCIAL ANALYSIS FOR ENGINEERS AND SCIENTISTS**

- |    |                                |     |
|----|--------------------------------|-----|
| 14 | Concepts in Financial Analysis | 351 |
| 15 | Estimating Financial Risk      | 375 |

**APPENDIXES**

- |   |  |     |
|---|--|-----|
| 1 | Some Tricks of the Pocket Calculator Trade     | 389 |
| 2 | Matrix Analysis on the Pocket Calculator       | 399 |
| 3 | Complex Numbers and Functions                  | 402 |
| 4 | Formulas for Commonly Encountered Calculations | 406 |

**INDEX** **441**
