

CONTENTS

1 PRELIMINARY CONSIDERATIONS

1.1	Summation and Multiplication Notation	2
1.2	Inductive Reasoning and the Fibonacci Sequence	6
1.3	Postulates for the Positive Integers	12
1.4	Mathematical Induction	14
1.5	The Well-Ordering Principle	19
1.6	Equivalence of the Principles of Induction and Well-Ordering	20
1.7	The Division Algorithm	22
1.8	Positional Notation	24

2 DIVISIBILITY PROPERTIES OF INTEGERS

2.1	Basic Properties	31
2.2	The Greatest Common Divisor	33
2.3	The Euclidean Algorithm	34
2.4	The Least Common Multiple	39
2.5	The Fundamental Theorem of Arithmetic	42
2.6	Pythagorean Triplets	48
2.7	The Greatest Integer Function	52

3 PRIME NUMBERS

3.1	The Sieve of Eratosthenes	59
3.2	The Infinitude of Primes	61
3.3	The Prime Number Theorem	66
3.4	Mersenne, Fermat, and Perfect Numbers	70

4 CONGRUENCES

4.1	Basic Definitions and Properties	75
4.2	Special Divisibility Criteria	82
4.3	Reduced Residue Systems and the Euler ϕ -Function	84

5 CONDITIONAL CONGRUENCES

5.1	Linear Congruences	91
5.2	The Chinese Remainder Theorem	95
5.3	Polynomial Congruences of Degree Greater Than One	101
5.4	Theorems of Lagrange and Wilson	106
5.5	Quadratic Congruences	109
5.6	The Quadratic Reciprocity Law of Gauss	111
5.7	Primitive Roots and Power Residues	122
5.8	Decimal Expansions of Real Numbers	130

6 SUMS OF SQUARES

6.1	Sums of Two Squares	137
6.2	Sums of More than Two Squares	142
6.3	Waring's Problem	146

7 MULTIPLICATIVE NUMBER-THEORETIC FUNCTIONS

7.1	Definitions	151
7.2	Notation	152
7.3	Multiplicative Number-Theoretic Functions	154
7.4	The Möbius Inversion Formula	158
7.5	The Euler Φ -Function	160
7.6	Other Inversion Formulas	164
7.7	A Further Inversion Formula	170

8 SIMPLE CONTINUED FRACTIONS

8.1	Finite Simple Continued Fractions	174
8.2	Convergents	177
8.3	Infinite Simple Continued Fractions	183
8.4	Periodic Simple Continued Fractions	187
8.5	Approximation of Irrationals by Rationals	191
	References	195
	Table of Prime Numbers Less than Ten Thousand	196
	Table of Canonical Representations of Positive Integers Less than One Thousand	200

Answers to Selected Exercises	205
