contents

1 logic and mathematical reasoning 1

1.1	Introduction	1
1.2	Statements	3
1.3	Conjunction, Disjunction, and Negation	4
1.4	Implication and Equivalence	9
1.5	The Converse, Inverse, and Contrapositive of an Implication	13
1.6	Types of Valid Arguments	16

2 sets, relations, and functions 23

2.1	Introduction	23
2.2	Sets and Set Notation	24
2.3	Subsets and Equal Sets	26
2.4	Universal Sets and the Complement of a Set	28
2.5	The Union and Intersection of Sets	32
2.6	Some Properties of Union and Intersection	35
2.7	Cartesian Products	40
2.8	Relations and Functions	44
2.9	Properties of Relations In $A \times A$	48

3 numbers and systems of numeration 55

3.1	Introduction	55
3.2	Cardinal Numbers	56
3.3	Various Uses of Numbers	60
3.4	Early Numeral Systems	62
3.5	Exponents	68
3.6	The Hindu-Arabic Numeral System	70
3.7	Reading and Writing Decimal Numerals	72
3.8	Scientific Notation	74

4 the system of whole numbers 79

4.1	Introduction	79
4.2	The Equality Relation for Numbers	80
4.3	Addition in W	80
4.4	Multiplication in W	86
4.5	The Distributive Property of Multiplication over Addition in W	92
4.6	Subtraction and Division in W	95
4.7	The System of Whole Numbers	98
4.8	Algorithms for Addition and Subtraction	100
4.9	Algorithms for Multiplication and Division	105
4.10	Numeral Systems with Bases Other Than Ten	113
4.11	Addition and Subtraction in Nondecimal Bases	118
4.12	Multiplication and Division in Nondecimal Bases	123

5 the system of integers 129

5.1	Introduction	129
5.2	Construction of the System of Integers	130
5.3	Addition in the Integers	132
5.4	Subtraction in the Integers	137
5.5	Multiplication and Division in the Integers	139
5.6	Order Relations	143
5.7	Ordering the Integers	145
5.8	Absolute Value	147

6 geometry and coordinate graphing 153

6.1	Introduction	153
6.2	Geometry: Euclidean and Non-Euclidean	154
6.3	Points, Lines, Planes, Space	157
6.4	Line Segments, Half-Lines, and Rays	159
6.5	Intersections, Parallel Lines and Planes, and Half-Planes	161
6.6	Angles	163
6.7	Plane Curves and Regions	166
6.8	Surfaces and Solids	168
6.9	Graphing Relations and Functions	171

7 number theory and mathematical systems 177

7.1	Introduction	177
7.2	Prime and Composite Numbers	179
7.3	The Fundamental Theorem of Arithmetic	182
7.4	Odd and Even Numbers	186
7.5	Greatest Common Divisor	187
7.6	Least Common Multiple	192
7.7	Finite Mathematical Systems	194
7.8	The Congruence Relation	198
7.9	Congruence and Casting Out Nines	203
7.10	Tests for Divisibility	206

8 the system of rational numbers 213

8.1	Introduction	213
8.2	The Set of Rational Numbers	214
8.3	The Fraction Concept	216
8.4	Addition of Rational Numbers	222
8.5	Subtraction of Rational Numbers	227
8.6	Multiplication of Rational Numbers	230
8.7	Division of Rational Numbers	234
8.8	The System of Rational Numbers	237
8.9	Equations and Problem Solving	239
8.10	Ordering the Rational Numbers	246
8.11	The Property of Denseness	249
8.12	Absolute Value	251

9 decimals and real numbers 255

9.1	Introduction	255
9.2	Decimal Fractions or Terminating Decimals	256
9.3	Addition and Subtraction of Decimal Fractions	259
9.4	Multiplication of Decimal Fractions	261
9.5	Division of Decimal Fractions	262
9.6	Repeating Decimals	264
9.7	Rounding Off Decimal Numbers	267
9.8	Ratio and Proportion	272
9.9	Percent	276
9.10	Irrational and Real Numbers	280
9.11	The Decimal Representation of Real Numbers	283

10 measurement and the metric system 289

10.1 Introduction 289
10.2 Congruence and the Measure of Line Segments 290
10.3 A Brief History of the Metric System 292
10.4 Some Basic Metric Units 294
10.5 Polygons, Circles, and Their Perimeters 299
10.6 The Measure of Angles 302
10.7 The Measure of Temperature 305
10.8 Plane Regions and Their Measures 308
10.9 Volumes and Surface Areas of Solids 317
10.10 The Pythagorean Theorem 326
10.11 Similar Geometric Figures 327

11 statistics and probability 333

11.1 Introduction 333
11.2 Organizing Data in Tables and Graphs 334
11.3 Frequency Distributions 340
11.4 Measures of Central Tendency 344
11.5 Measures of Dispersion 349
11.6 The Normal Curve 353
11.7 Probability and Odds 357
11.8 Mathematical Expectation 362
11.9 Counting Techniques and Factorial Notation 366
11.10 Permutations 370
11.11 Combinations 373

12 algebra and analytic geometry 379

12.1 Introduction 379
12.2 Graphing Points and Straight Lines 379
12.3 The Distance between Points 385
12.4 The Slope of a Line 389
12.5 The Point–Slope Form of the Equation of a Line 391
12.6 The Slope–Intercept Form of the Equation of a Line 393
12.7 Circles and Their Graphs 395

ANSWERS to Selected Exercises 399

INDEX 463
