CONTENTS

PREFACE		vi
CHAPTER ONE	**SETS AND THE WHOLE NUMBERS**	1
1.1	Set and Set Membership Concepts	1
1.2	Subsets	10
1.3	The Set of Whole Numbers	19
1.4	Relations and Functions	31
CHAPTER TWO	**SETS AND ARITHMETIC OPERATIONS**	44
2.1	Union of Sets	44
2.2	Intersection of Sets	52
2.3	Set Difference	61
2.4	Addition and Subtraction of Whole Numbers	66
2.5	Multiplication and Division of Whole Numbers	76
2.6	Properties of the Arithmetic Operations	92
CHAPTER THREE	**BASE-TEN ARITHMETIC**	102
3.1	Systems of Numeration	102
3.2	Addition and Subtraction	113
3.3	Multiplication	127
3.4	Division	139
CHAPTER FOUR	**BASES OTHER THAN TEN**	146
4.1	Numerals	146
4.2	Addition and Subtraction	158
4.3	Multiplication and Division	164
CHAPTER FIVE	**TOPICS FROM NUMBER THEORY**	174
5.1	The Concept of Divisibility	174
5.2	Factorization of Whole Numbers	182
5.3	Greatest Common Divisor; Least Common Multiple	189

CHAPTER SIX	**THE SYSTEM OF INTEGERS**	200
6.1	The Integers	200
6.2	Addition and Subtraction	207
6.3	Multiplication and Division	219
CHAPTER SEVEN	**THE SYSTEM OF RATIONAL NUMBERS**	227
7.1	Fractions	227
7.2	Rational Numbers	241
7.3	Addition and Subtraction	249
7.4	Multiplication and Division	263
7.5	Negative Rational Numbers	277
7.6	Ratio and Proportion	283
7.7	Probability	290
CHAPTER EIGHT	**DECIMAL NUMERALS AND REAL NUMBERS**	296
8.1	Decimal Notation of Rational Numbers	296
8.2	Addition and Subtraction with Decimal Numerals	303
8.3	Multiplication and Division with Decimal Numerals	310
8.4	The Set of Real Numbers	321
8.5	Percent	328
8.6	Statistical Averages	333
CHAPTER NINE	**MEASUREMENT AND THE METRIC SYSTEM**	338
9.1	Length and Measure	339
9.2	The International System of Metric Units—The SI System	350
9.3	Angular Measurement	358
9.4	Area	369
9.5	Volume	382
9.6	Mass and Temperature	394
CHAPTER TEN	**OTHER TOPICS IN GEOMETRY**	400
10.1	Congruence and Geometric Constructions	400
10.2	Classification of Regions and Figures	413

10.3 A Rectangular Coordinate System 424
10.4 Graphs 433

SOLUTIONS 445
INDEX 493
