

# CONTENTS

## I The Real Numbers

Introduction	1
Section 1 The Language of Sets	2
Section 2 The Real Numbers	14
Section 3 The Order Relations in $\mathbb{R}$	24
Section 4 Solving Inequalities	37
Section 5 Absolute Value	44
Section 6 Some Counting Techniques—The Binomial Theorem	55
Review Exercises	67

## II $\mathbb{R}^2$ and Graphs

Introduction	71
Section 1 $\mathbb{R}^2$ and the Plane	72
Section 2 Graphs	82
Section 3 Lines and Linear Equations	97
Section 4 Some Graphing Techniques	115
Section 5 Intersections of Graphs	133
Section 6 The Complex Number System	146
Review Exercises	156

## III Functions

Introduction	161
Section 1 Functions	163
Section 2 More About Functions	179
Section 3 Functions and Graphs	196
Section 4 Functions and Applications	227
Review Exercises	243

## IV Some Particular Functions

Introduction	249
Section 1 Polynomial Functions (Generalities)	250
Section 2 Polynomial Functions (Constant and Linear Functions)	265
Section 3 Quadratic Functions	281
Section 4 Rational Functions	304
Section 5 Conics and Functions Involving Square Roots	337
Review Exercises	361

## V Exponential and Logarithmic Functions

Introduction	366
Section 1 Inverse Functions	367
Section 2 Exponential and Logarithmic Functions/Introduction	384
Section 3 More on Exponential and Logarithmic Functions	401
Review Exercises	414

## VI Trigonometric Functions

Introduction	418
Section 1 The awf Function	419
Section 2 The Trigonometric Functions	436
Section 3 Graphs of the Trigonometric Functions	450
Section 4 Applications I - Periodicity and Simple Harmonic Motion	470
Section 5 Some Trigonometric Identities	486
Section 6 Trigonometry of Angles	503
Section 7 Trigonometry and Triangles - Applications II	514
Section 8 Inverse Trigonometric Functions	530
Section 9 Trigonometric Equations	549
Section 10 Trigonometry and Complex Numbers; DeMoivre's Theorem	558
Review Exercises	570

Table I Four-Place Logarithms of Numbers from 1 to 10	577
---	-----

Table II Four-Place Values of Trigonometric Functions	579
---	-----

Table III Four-Place Values of Trigonometric Functions, Angle $\alpha$ in Degrees	583
--	-----

Answers to Selected Exercises	584
-------------------------------	-----

Index	654
-------	-----
