

| | |
|---|-----------|
| Writing Numbers | 3 |
| (Recording numbers to less than a million) | |
| Checking Addition 1 | 4 |
| (Calculator checks for addition) | |
| Number Patterns 1 | 5 |
| (Adding 3 or more consecutive numbers) | |
| Comparing Calculations 1 | 6 |
| (Multiplications differing by a factor of 10 or 100) | |
| Number Chains 1 | 7 |
| (Multiplying and dividing by 10 or 100) | |
| Missing Keys 1 | 8 |
| (Missing operations and missing digits) | |
| Checking Addition 2 | 9 |
| (Grid method for adding and checking a long list of numbers) | |
| Number Patterns 2 | 10 |
| (Comparing products for number sequences) | |
| Decimal Fractions | 11 |
| (Truncation errors on basic calculators) | |
| Comparing Decimal Fractions | 12 |
| (Comparing the values of related fractions) | |
| Checking Subtraction and Division | 13 |
| (Calculator checks using inverse operations) | |
| Checking Multiplication | 14 |
| (Approximations and calculator checks for multiplication) | |
| Number Patterns 3 | 15 |
| (Adding consecutive numbers) | |
| Number Chains 2 | 16 |
| (Multiplying by 10, 100, 1000 and 0.1, 0.01) | |
| Comparing Calculations 2 | 17 |
| (Divisions differing by a factor of 10 or 100) | |
| Target 1 | 18 |
| How Many? 1 | 19 |
| (Dividing by numbers greater than 1) | |
| How Many? 2 | 20 |
| (Introduction to dividing by numbers less than 1) | |
| How Many? 3 | 21 |
| (Dividing by small numbers) | |
| Comparing Calculations 3 | 22 |
| (Divisions differing by a factor of 10 or 100, including dividing by numbers less than 1) | |
| Number Chains 3 | 23 |
| (Dividing by 10, 100, 1000 and also by 0.1 and 0.01) | |
| Trial and Error 1 | 24 |
| (Introduction to trial and error routines involving two variables) | |

| | |
|---|-----------|
| Trial and Error 2 | 25 |
| (More examples involving two variables) | |
| Percentages 1 | 26 |
| (Comparing decimal, percentage and common fractions on the number line) | |
| Percentages 2 | 27 |
| (Percentages and simple common fractions) | |
| Percentages 3 | 28 |
| (Using a graph to find percentages of a number) | |
| Percentages 4 | 29 |
| (Approximation and calculation of percentages) | |
| Target 2 | 30 |
| Missing Keys 2 | 31 |
| (Missing operations and missing digits) | |
| Four in a Line: game for 2 players | 32 |
| (Develops estimation skills for multiplication) | |
