List of Figures	xi
List of Tables	xiii
Preface	xv
Acknowledgments	xix
1	
Introduction	1
Plan of the Book	6
2	
The Digging Stick, the Steel Ax, and the Calculator	11
Prehistory	13
Recent History	19
Indigenous Mathematics Project Sites	21
Culture and Educational Development	52

3	
Cognitive Testing in Papua New Guinea	53
Piagetian Research	56
Brunerian Studies	58
Implications for a Theory of Culture and Cognition	63
Implications for a Program of Research	70
4	
Intercultural Variation in Cognitive Development	73
Procedure	73
The Tests	76
Results	83
Overview	95
5	
Cultural Complexity	101
Counting Systems	102
Classification Systems	110
Children's Play	116
Technological Complexity	119
Urban Residence	123
Malnutrition	126
Conclusion	134
6	
The Development of Counting and Classification Skills	137
Studies of Numerical Reasoning	140
Studies of Length Conservation	145
Further Studies in Classification and Cognition	156

7**The Limits of Mathematical Achievement 171**

Some Historical Issues	171
Mathematics Achievement—First Survey	176
Mathematics Achievement—Second Survey	181
Research in the Mathematics Education Centre	185
The Teaching of Mathematics	188
Conclusion	191

8**The Co-evolution of Culture, Cognition, and Schooling 195**
