

# Contents

- 1 Varieties of Mathematical Psychology 1
- 2 Discursive Applications 8
  - Concepts as Forces *Johann Friedrich Herbart* 14
  - Topology of the Psychological Environment  
*Kurt Lewin* 24
- 3 Normative Applications 32
  - Exposition of a New Theory on the Measurement  
of Risk *Daniel Bernoulli* 36
  - Theory of Utility *William Stanley Jevons* 53
  - Truth and Probability *Frank Plumpton Ramsey* 67
  - Neumann's and Morgenstern's New Approach to  
Static Economics *Jacob Marschak* 78
- 4 Functional Applications: Determinate 92
  - The Fundamental Formula and the Measurement  
Formula *Gustav Theodor Fechner* 95
  - Fechner's Psychophysics *Edward Bradford Titchener* 101
  - The Quantification of Sensation  
*Stanley Smith Stevens* 110
  - The Nature of the Photoreceptor Process  
*Selig Hecht* 119
  - The Learning Curve Equation  
*Louis Leon Thurstone* 128
  - Habit Strength and Number of Reinforcements  
*Clark Leonard Hull* 132

4	Functional Applications: Determinate (cont.)	
	The Construction of Social Science Models	
	<i>Herbert Alexander Simon</i>	137
5	Functional Applications: Statistical	147
	A Law of Comparative Judgment	
	<i>Louis Leon Thurstone</i>	154
	$\Delta I$ as a Function of Intensity	
	<i>William John Crozier</i>	165
	What Is Information Measurement?	
	<i>George Armitage Miller</i>	171
	Decision Processes in Perception	<i>John Arthur Swets,</i>
	<i>Wilson Pennell Tanner, Jr.,</i>	
	<i>and Theodore Gerald Birdsall</i>	184
	The Learning Function	<i>Louis Leon Thurstone</i> 198
	A Statistical Theory of Learning	
	<i>William Kaye Estes</i>	207
	The Value of Stochastic Models	<i>Robert Ray Bush</i>
	<i>and Frederick Mosteller</i>	215
6	Structural Applications	222
	"General Intelligence"	<i>Charles Edward Spearman</i> 227
	Multiple-Factor Analysis	<i>Louis Leon Thurstone</i> 236
	Communicating Vessels	<i>Bärbel Inhelder and</i>
	<i>Jean Piaget</i>	246
	An Elementary Linguistic Theory	<i>Noam Chomsky</i> 250
	Patterns of Group Structure	<i>Leon Festinger,</i>
	<i>Stanley Schachter, and Kurt Back</i>	258
7	Quasimathematical Psychology	270
	Theory of the Human Operator in Control Systems	
	<i>Kenneth James Williams Craik</i>	273
	Programming the Edsac to Go Shopping	
	<i>Anthony Gervin Oettinger</i>	283
	Name Index	293
