	PAGE
INTRODUCTION . . . . .	1
1. THE MATHEMATICIAN AND HIS TASK . . . . .	5
<i>The theories of physics ... New lamps for old ... The necessity of mathematics in science ... Empirical formulæ in physical science ... Mathematical abstractions ... Mathematical techniques ... Mathematical worlds.</i>	
2. THE TOOLS OF THE TRADE . . . . .	24
<i>Arithmetic and algebra ... Complex numbers ... New geometries ... The infinitesimal calculus ... Derivatives and differentials ... Integration ... Differentiation and integration in physics ... The mathematical structure of classical physics ... Differential equations ... Atomistic and field theories of physics ... The equations of physics and the Laplacian.</i>	
3. BALLISTICS, OR NEWTONIAN DYNAMICS IN WAR . . . . .	68
<i>Gunnery as an exact science ... Projectiles in vacuo ... The resistance of the air ... Gunnery in the real atmosphere ... The calculation of trajectories ... Numerical analysis and calculating machines.</i>	
4. AN ESSAY ON WAVES . . . . .	91
<i>Waves in the natural world ... Mathematical waves ... Fourier series ... Radio signals and their reproduction ... Waves and particles ... Eigenfunctions and eigenvalues ... The 'Method of Characteristics'.</i>	
5. THE MATHEMATICS OF FLIGHT . . . . .	131
<i>The problem ... The fundamentals of fluid motion theory ... Streamline maps for ideal fluids ... Patterns of irrotational motion ... The dynamical problem and its solution ... Circulation and the origin of lift ... Joukowski's solution of the two-dimensional aerofoil problem ... Lanchester's theory of the finite aerofoil ... The aerofoil at high speed.</i>	

	PAGE
6. STATISTICS, OR THE WEIGHING OF EVIDENCE . . . . .	167
<i>What is Statistics? ... Distributions and measures of dispersion ... Correlation ... Sampling ... The problem of significance.</i>	
7. MATHEMATICS AND THE WEATHER . . . . .	194
<i>The problems of the atmosphere ... The atmosphere at rest ... Fluid motion and Richardson's Dream ... The geostrophic balance ... Routine weather forecasting ... Mathematics and forecasting ... Long waves in the atmosphere ... Numerical forecasting.</i>	
APPENDIX . . . . .	223
INDEX . . . . .	233
