

# Contents

<b>Introduction</b>		1
<b>1. Calculators: Policies, Uses, and Selection</b>		3
The Hand-held Calculator April 1976 <i>Arithmetic Teacher (AT)</i>	<i>George Immerzeel</i>	5
Hand Calculators: Where Do You Stand? November 1976 <i>AT</i>	<i>Richard J. Shumway</i>	7
Electronic Calculators—Friend or Foe of Instruction? February 1976 <i>Mathematics Teacher (MT)</i>	<i>Eleanore Machlowitz</i>	11
Your District Needs a Policy on Pocket Calculators! October 1977 <i>AT</i>	<i>Howard R. Munson</i>	14
Hand-held Calculators: Help or Hindrance? December 1973 <i>AT</i>	<i>Frank S. Hawthorne</i>	15
Selecting a Minicalculator November 1976 <i>AT</i>	<i>Joseph R. Caravella</i>	17
The Electronic Calculator—Another Teaching Aid? November 1976 <i>AT</i>	<i>Joy J. Rogers</i>	21
Specifications for Electronic Calculators January 1976 <i>MT</i>	<i>David Jesson and         Frank Kurley</i>	25
Calculators in the Classroom May 1978 <i>MT</i>	<i>Gregory Aidala and         Peter Rosenfeld</i>	28

Calculators in the Elementary Classroom March 1978 <i>AT</i>	<i>Paula M. Drake</i>	30
Minicalculators in the Classroom—What Do Teachers Think? April 1978 <i>AT</i>	<i>Henry B. A. Palmer</i>	32
Are Calculators a Crutch? May 1978 <i>MT</i>	<i>Zalman Usiskin</i>	34
Hand-held Calculators—Past, Present, and Future 1977 NCTM Yearbook, <i>Organizing for Mathematics Instruction</i>	<i>Max Bell, Edward Esty, Joseph N. Payne, and Marilyn N. Suydam</i>	36
<b>2. Calculators and the Curriculum</b>		53
Calculators in Elementary Schools? Some Tentative Guidelines and Questions Based on Classroom Experience November 1976 <i>AT</i>	<i>Max S. Bell</i>	55
Calculators and the Mathematics Curriculum November 1976 <i>AT</i>	<i>Jane Donnelly Gawronski and Dwight Coblentz</i>	63
Minicalculators in Schools January 1976 <i>MT</i>	<i>NCTM Instructional Affairs Committee</i>	66
A Modest Proposal Concerning the Use of Hand Calculators in Schools December 1976 <i>AT</i>	<i>Edwin E. Hopkins</i>	69
Electronic Calculators in the Classroom February 1975 <i>AT</i>	<i>Lowell Stultz</i>	72
Why Not Have a Calculator Tournament? November 1976 <i>AT</i>	<i>Larry F. Guthrie and Clyde A. Wiles</i>	76
Calculators for Classroom Use? November 1978 <i>AT</i>	<i>Eli Teitelbaum</i>	81
Calculators: What Difference Will They Make? December 1978 <i>AT</i>	<i>Rosemary Schmalz, S.P.</i>	84
Calculators in Secondary School Mathematics May 1978 <i>MT</i>	<i>Max S. Bell</i>	86
Hand-held Calculators and Potential Redesign of the School Mathematics Curriculum April 1977 <i>MT</i>	<i>Henry O. Pollak</i>	92

### 3. Calculator Activities

Instructional Games with Calculators November 1976 <i>AT</i>	<i>Wallace Judd</i>	99
IDEAS January 1979 <i>AT</i>	<i>Earl Ockenga and Joan Duea</i>	102
Check Your Calculator Computations December 1976 <i>AT</i>	<i>Charles D. Friesen</i>	107
Taking Advantage of the Hand Calculator November 1976 <i>AT</i>	<i>James V. Bruni and Helene J. Silverman</i>	108
Problem Solving with Calculators April 1978 <i>AT</i>	<i>Janet Parker Morris</i>	116
Minicalculators and Repeating Decimals April 1978 <i>AT</i>	<i>Billy F. Hobbs and Charles H. Burris</i>	119
A Calculator Activity That Teaches Mathematics April 1978 <i>AT</i>	<i>Glenda Lappan and Mary Jean Winter</i>	122
Using a Calculator to Do Arithmetic in Bases Other than Ten September 1978 <i>AT</i>	<i>James E. Schultz</i>	125
Can You Predict the Repetend? December 1976 <i>MT</i>	<i>Douglas Woodburn</i>	128
Calculator Ideas for the Junior High Classroom November 1976 <i>AT</i>	<i>Earl Ockenga</i>	132
Calculations You Would Never Make without a Minicalculator November 1977 <i>MT</i>	<i>Bonnie H. Litwiller and David R. Duncan</i>	136
Cube Roots on a Calculator February 1977 <i>MT</i>	<i>Rebecca A. Eimer</i>	139
Using a Calculator to Find Rational Roots May 1978 <i>MT</i>	<i>Bert K. Waits</i>	140
Calculating Order September 1978 <i>MT</i>	<i>Susan Smith</i>	142
Calculator Capers May 1978 <i>MT</i>	<i>Rosemary Schmalz, S.P.</i>	146
Calculator Crossword Puzzle April 1978 <i>MT</i>	<i>Joseph F. Goodhue</i>	150
Calculator Graphing December 1978 <i>MT</i>	<i>William A. Miller and Donald W. Hazekamp</i>	154

Pattern Gazing January 1979 <i>MT</i>	<i>Cherie Adler Aviv</i>	158
Calculator Charades April 1976 <i>MT</i>	<i>Patrick J. Boyle</i>	163
The Calculator a Calendar? December 1976 <i>AT</i>	<i>Henry F. Kahn</i>	165
Mysticism and Magic in the Number Squares of Old China January 1978 <i>MT</i>	<i>Frank Swetz</i>	168
Minicalculators and Repeating Decimals September 1978 <i>MT</i>	<i>Donovan R. Lichtenberg</i>	175
The Pocket Calculator as a Teaching Aid October 1976 <i>MT</i>	<i>Eli Maor</i>	182
Using Tables to Teach Mathematics November 1978 <i>MT</i>	<i>Clifton Keller</i>	187
Efficient Algorithms for the Calculator October 1978 <i>MT</i>	<i>Richard J. Friedlander</i>	189
The Role of Programmable Calculators and Computers in Mathematical Proofs December 1978 <i>MT</i>	<i>Stephen L. Snover and Mark A. Spikell</i>	194
Finding Areas under Curves with Hand-held Calculators May 1978 <i>MT</i>	<i>Arthur A. Hiatt</i>	200
Applications of Calculators and Computers to Limits January 1976 <i>MT</i>	<i>Richard Johnsonbaugh</i>	204
Derivatives on the Hand-held Calculator September 1978 <i>MT</i>	<i>Raymond V. Morgan and Tony T. Warnock</i>	210
<b>4. Research</b>		217
Where Do You Stand? Computational Skill Is Passé October 1974 <i>MT</i>	<i>Mathematics Teacher Editorial Panel</i>	219
Just Pushing Buttons or Learning?— A Case for Minicalculators November 1976 <i>AT</i>	<i>James O. Schnur and Jerry W. Lang</i>	223
Using Hand-held Calculators in Sixth-Grade Classes November 1976 <i>AT</i>	<i>John J. Sullivan</i>	227
The Minicalculator: Friend or Foe? December 1976 <i>AT</i>	<i>Jesse A. Rudnick and Stephen Krulik</i>	229
