

1	Your calculator	5
2	Arithmetic, the four rules:	
	Adding and subtracting	8
	Multiplying	12
	Dividing	13
	Order of operations	14
3	Percentages:	
	Working with percentages	16
	Percentage changes	18
4	Rounding	20
5	Estimation	23
6	Remainders	27
7	Social arithmetic:	
	Adding up the cost	31
	Cooking times	33
	Miles per gallon	35
	Metric conversions	36
	Comparing value	37

8 Patterns	38
9 Averages	42
10 Substituting into formulae:	
Temperature formulae	44
Mensuration formulae	45
Plotting graphs from formulae	47
11 Calculator projects:	
Covering costs	48
Planning an excursion	51
Finding where y is zero	53
Space battle game	54
Motor car salesroom	57
