<b>Foreword.</b> . . . . .	11
<b>Introduction.</b> . . . . .	13
<b>PART I – THE DEVELOPMENT OF COMPUTER ASSISTED LEARNING</b>	
<b>Chapter 1 A systems approach to curriculum development, the Manchester project for computer studies in schools</b> Kathleen Hennessy, Lecturer in Systems Analysis, University of Manchester Institute of Science and Technology	
1.1 Curriculum development and systems analysis. . . . .	15
1.2 Wider systems that affect curriculum development. . . . .	17
1.3 The realities of the classroom situation . . . . .	21
1.4 Specific constraints on curriculum development . . . . .	22
1.5 Systems approach for the Manchester project . . . . .	24
1.6 Prospects for curriculum development. . . . .	29
References . . . . .	30
<b>Chapter 2 Mechanism for CAL origination</b> Bob Lewis, St. Martin's College, Lancaster	
2.1 Curriculae resources required for CAL. . . . .	31
2.2 CAL as a curriculum resource . . . . .	34
2.3 Development alternatives in CAL production . . . . .	35
2.4 Technical considerations for CAL dissemination . . . . .	37
2.5 The future . . . . .	39
References . . . . .	39

**Chapter 3 In-service micro courses for the teaching profession**

David Burghes, School of Education, Exeter University

3.1	The micro as an educational resource . . . . .	41
3.2	Teacher resistance to a new resource . . . . .	42
3.3	In-service courses. . . . .	43
3.4	The future exploitation . . . . .	45

**Chapter 4 The role of the Local Education Authorities**

Keith Tomlinson, Bradford Metropolitan Council

4.1	Is there a role for the LEA to play?. . . . .	47
4.2	Bradford's approach, the schools computing centre . . . . .	48
4.3	The roles of a school centre. . . . .	50
4.4	Current provision of computer facilities for Bradford schools. . . . .	51

**Chapter 5 A national software library**David Walker, Director,  
Scottish Microelectronic Development Program

5.1	Levels . . . . .	55
5.2	Language. . . . .	56
5.3	Classroom management . . . . .	57
5.4	Sources of software . . . . .	58
5.5	Distribution . . . . .	58
5.6	Conclusion. . . . .	59

**Chapter 6 Microcomputers and special education: survey and prospects**

Peter Goodyear and Annette Barnard, Aston University

6.1	Preamble — a role for academic research . . . . .	61
6.2	Survey and typology . . . . .	62
6.3	The MEP/CET special education programme. . . . .	65
6.4	Containment of an innovation . . . . .	66
6.5	Foundations of the Ashton project. . . . .	68
6.6	Conclusion for the future . . . . .	71
	References. . . . .	72

**PART 2 — LANGUAGES FOR MICROCOMPUTERS IN EDUCATION****Chapter 7 COMAL — an educational alternative**

Borge Christensen, States Training College, Tonder, Denmark

7.1	Problems with BASIC. . . . .	75
7.2	The origin of COMAL . . . . .	77
7.3	Development of COMAL . . . . .	79
7.4	Applications of COMAL. . . . .	80

<b>Chapter 8</b>	<b>Software standards in BASIC and COMAL</b>	
	Roy Atherton, Bulmershe College of Higher Education	
8.1	Published standards in BASIC . . . . .	83
8.2	Assumptions about BASIC . . . . .	86
8.3	Structural principles and rules . . . . .	88
8.4	Essential structures in COMAL and BASIC. . . . .	89
8.5	A structural problem in CAL programs . . . . .	94
8.6	Conclusions and suggestions . . . . .	97
	References. . . . .	98
<b>Chapter 9</b>	<b>PETCAI: A system for development and delivery of computer-assisted instruction</b>	
	Danny Doyle, Gawcott, Bucks.	
9.1	A history of computer assisted instruction . . . . .	99
9.2	A frame system for the microcomputer: PETCAI . . . . .	102
<b>Chapter 10</b>	<b>Some techniques and applications of computer graphics in CAL</b>	
	Adrian Oldknow, West Sussex Institute of Higher Education	
10.1	The role of the microcomputer in graphics. . . . .	109
10.2	Techniques for lines, circles, curves and solids. . . . .	111
10.3	Applications in education . . . . .	118
10.4	Postscript. . . . .	123
	References . . . . .	123
	Appendix 1 . . . . .	124
<b>Chapter 11</b>	<b>A versatile double-density plotting and screen to hardcopy package for CAL</b>	
	David Williams, Brunel University	
11.1	The need for machine-code plot and print routines . . . . .	127
11.2	Loading the package . . . . .	128
11.3	Using the plot and print routines . . . . .	129
<b>PART 3 – APPLICATIONS OF MICROCOMPUTERS IN EDUCATION</b>		
<b>Chapter 12</b>	<b>PETNET – data transmission system</b>	
	Nick Green, Commodore (UK) Ltd.	
12.1	The concept of PETNET. . . . .	133
12.2	Data transmission protocol . . . . .	134
12.3	Terminal features . . . . .	136
12.4	Mainframe functions . . . . .	140
12.5	Operation of the system and applications. . . . .	142

**Chapter 13 The use of microcomputers to control equipment**

Peter Avis, Anthony Gell School, Warksworth

13.1	What is computer control? . . . . .	145
13.2	Why introduce control by computer? . . . . .	146
13.3	How to use the PET for computer control . . . . .	148
13.4	Pupil projects . . . . .	155
	References . . . . .	169
	Appendix 1 – Construction of the interface box . . . . .	170
	Appendix 2 – Construction of coin-input keyboard . . . . .	173
	Appendix 3 – Construction plan of robot . . . . .	173
	Appendix 4 – Assembly level program for robot control . . . . .	174

**Chapter 14 PETs in the practical class: the case for computer assisted experimentation**

Christopher Smith, Queen Elizabeth College, University of London

14.1	Differing roles for the use of microcomputer in education. . . . .	177
14.2	A history of computers in the laboratory . . . . .	180
14.3	Examples of computer assisted experimentation (CAE) . . . . .	181

**Chapter 15 Teaching processor architecture and low level languages at 'A' level using a model computer**

Peter Bishop, 107 College Road, London NW10

15.1	Why a model computer? . . . . .	185
15.2	Design influences, syllabus, student capabilities and real machines . . . . .	186
15.3	Architecture and languages of the model processor, AMC . . . . .	188
15.4	The AMC simulation package. . . . .	191
	References . . . . .	192

**Chapter 16 The possibilities of using CAL on Business Education****Council Courses**

Adrian Woods, Polytechnic of North London

16.1	Interdisciplinary nature of business education and cognitive objectives . . . . .	193
16.2	Teaching strategies. . . . .	195
16.3	CAL's place in business education council courses . . . . .	196
16.4	Use of CAL with cross modular assignments . . . . .	197
16.5	Conclusions . . . . .	199
	References . . . . .	199

**Chapter 17 School administration without discs: how much can be done?**

Ian Birnbaum, Ramsey Abbey School, Huntingdon

17.1	Administrative programs used at Ramsey Abbey School . . . . .	201
17.2	Principles in administrative program design. . . . .	202
17.3	Reliability of cassette data storage . . . . .	203
17.4	Software techniques with cassette data storage . . . . .	204
<b>Addresses of Contributors . . . . .</b>		<b>207</b>
<b>Glossary . . . . .</b>		<b>209</b>
<b>Index . . . . .</b>		<b>210</b>
