I LOGO IN THE CURRICULUM

Introduction to Part I 3

- | | | |
|----------|--|------------|
| 1 | <i>The Notion of Variable in the Context of Turtle Graphics</i> | 11 |
| | <i>Joel Hillel</i> | |
| 2 | <i>What Is Algebraic about Programming in Logo?</i> | 37 |
| | <i>Rosamund Sutherland</i> | |
| 3 | <i>Conceptually Defined Turtles</i> | 55 |
| | <i>Herbert Loethe</i> | |
| 4 | <i>The Turtle Metaphor as a Tool for Children's Geometry</i> | 97 |
| | <i>Chronis Kynigos</i> | |
| 5 | <i>A Logo Microworld for Transformation Geometry</i> | 127 |
| | <i>Laurie D. Edwards</i> | |

II STYLES AND STRATEGIES

Introduction to Part II 159

- | | | |
|----------|---|------------|
| 6 | <i>LEGO-Logo: A Vehicle for Learning</i> | 165 |
| | <i>Sylvia Weir</i> | |
| 7 | <i>On Intra- and Interindividual Differences in Children's Learning Styles</i> | 191 |
| | <i>Tamara Lemerise</i> | |

8 Mathematics in a Logo Environment: A Recursive Look at a Complex Phenomenon 223

Thomas E. Kieren

9 Between Logo and Mathematics: A Road of Tunnels and Bridges 247

Jean-Luc Gurtner

III EXPRESSING MATHEMATICAL STRUCTURES

Introduction to Part III 271

10 Processes: A Dynamical Integration of Computer Science into Mathematical Education 279

Bruno Vitale

11 Of Geometry, Turtles, and Groups 319

Uri Leron and Rina Zazkis

12 Patterns, Permutations, and Groups 353

Trevor Fletcher

13 Avoiding Recursion 393

Brian Harvey

IV AFTERWORD

Introduction to Part IV 429

14 Looking Back and Looking Forward 431

Richard Noss and Celia Hoyles

Index 471
