

Contents

Preface

CHAPTER I

SOIL DYNAMICS AND TRACTION

Kai Cui, Pauline Défossez and Guy Richard

A New Approach for Modelling the Vertical Stress Distribution at the Soil/Tyre Interface to Predict Compaction of Cultivated Soils with PLAXIS Model 1

Dirk Ansorge and Richard Godwin

High Axle Load – Track – Tire Comparison 9

Athanasios Dedousis, Richard Godwin, Michael O'Dogherty, Nick Tillett and James Brighton

Effect of Implement Geometry and Inclination Angle on Soil Failure and Forces Acting on a Shallow Rotating Disc for Inter- and Intra-Row Hoeing 15

Gholamhossein Shahgoli, Chris Saunders, Jack Desbiolles and John Fielke
An Investigation into the Performance of Vibratory Tillage Using Straight and Bent Leg Tines 21

CHAPTER II

TRAFFIC, TILLAGE AND SOIL DEFORMATION

Beat Schäffer, Martin Stauber, Ralph Müller and Rainer Schulin

Compaction-Induced Changes in Macro-Pore Structure of Restored Soil 31

Per Schjønning, Mathieu Lamandé, Frede A. Tøgersen, Johan Arvidsson and Thomas Keller

Distribution of Vertical Stress at the Soil-Tyre Interface: Effects of Tyre Inflation Pressure and the Impact on Stress Propagation in the Soil Profile 38

Wibke Markgraf and Rainer Horn

Rheometry in Soil Mechanics: Microstructural Changes in a Calcaric Gleysol and a Dystric Planosol 47

Dani Or, Markus Berli, Christopher G. Eggers and Michael L. Accorsi

Linking Soil Micro-Mechanics and Hydraulic Conductivity 59

Jerzy Lipiec, Boguslaw Usowicz and Aldo Ferrero

Management Effects of Sloping Vineyard on Thermal Properties of Soil 71

Aude Gallardo-Carrera, Carolyne Dürr, Michel Herbin, Y. Duval and J. Lingrand

Analysis of the Surface Crack Pattern of Seedbeds in a Silt Loam Soil 79

Stephan Gebhardt, Heiner Fleige and Rainer Horn

Stress-Deformation Behaviour of Different Soil Horizons and their Change in Saturated Hydraulic Conductivity as a Function of Load 86

CHAPTER III

CONSERVATION FARMING AND FORESTRY LANDUSE SYSTEMS AND ENVIRONMENTAL QUALITY

- Julia Krümmelbein, Zhongyan Wang, Ying Zhao, Stephan Peth and Rainer Horn*
Influence of Various Grazing Intensities on Soil Stability, Soil Structure and Water Balance of Grassland Soils in Inner Mongolia, P.R. China 93
- Olga P. Gaęe, Ewa A. Czyż and Anthony R. Dexter*
Soil Physical Quality, *S*, as a Basis for Relationships between some Key Physical Properties of Arable Soils 102
- Sebastian Ulrich, Bodo Hofmann, Sabine Tischer and Olaf Christen*
Influence of Tillage on Soil Quality in a Long-Term Trial in Germany 110
- Alan J. Franzluebbbers and John A. Stuedemann*
Soil Physical and Biological Responses to Cattle Grazing of Cover Crops 117
- Mirko Castellini, Domenico Ventrella, Donato De Giorgio, Michele Maiorana, Angelo Fiore and Francesco Fornaro*
Hydraulic Properties as Affected by Tillage and Crop Residues Management in a Vertisol of Southern Italy 124
- Oswaldo Ernst and Guillermo Siri-Prieto*
Soil Organic Carbon and Total Nitrogen in Relation to Tillage and Crop-Pasture Rotation 132

CHAPTER IV

SOIL BIOLOGICAL QUALITY AND HEALTH

- Hans-Rudolf Oberholzer, Monika Wysser, Martin Hartmann and Franco Widmer*
Regeneration of Impaired Biological Soil Properties Caused by Physical Soil Impact 140
- Isabel Brito, Mário de Carvalho, Diederik van Tuinen and Michael Goss*
Effects of Soil Management on Arbuscular Mycorrhizal Fungi in Autumn-Sown Crops in Mediterranean Climates 149
- Endla Reintam, Jaan Kuht, Katrin Triikmann and Virgo Rääts*
Soil Compaction and Fertilization Effect on Weed Community and Nutrient Uptake on Spring Barley Field 157
- Peter Weisskopf, Hans-Rudolf Oberholzer and Jan Rek*
Influence of Different Regeneration Courses on Structural and Microbial Properties of a Compacted Soil 170
- Laura Alakukku*
Emergence of Small Grain Cereals at Different Water Potentials of Clay and Sandy Soil 175
- Katrin Rutt, Andreas Gransee and Olaf Christen*
Long-term Effects of Potassium on Parameters of the Soil Water Balance 181

Bill Deen, Ken Janovicek, Tony Vyn and David Lapen
**Effect of Intermittent Tillage on Yield and Soil Quality in a
Corn/Soybean/Wheat Rotation** 189

Bandula Premalal and Bill Deen
Response of Early Corn (*Zea mays* L.) Growth to Soil Aggregate Size 195

CHAPTER V
SOIL AMENDMENTS

M. Stanley Liphadzi and Mary Beth Kirkham
**Availability of Heavy Metals in Soil with Injected Sludge and
Composted-Sludge Soil** 203

CHAPTER VI
PRECISION AGRICULTURE

*Abdul Mounem Mouazen, Mohammad Reza Malaki, Josse De Baerdemaeker
and Herman Ramon*
**Primary Results on On-line Measurement of Some Selected Soil
Properties Using a VIS-NIR Sensor** 215

Dainis Lapins, Arvids Vilde, Andris Berzins, Aigars Plume, Adolfs Rucins
**Investigations in Precision Agriculture in Latvia Studies of Soil
Properties and Tillage** 223

José A. Terra, Fernando Garcia-Préchac, Lucía Salvo, and Jorge Hernández
**Soil Use Intensity Impact on Total and Particulate Soil Organic Matter
in No-till Crop-Pasture Rotations under Direct Grazing** 233

Andrew Whitlock
Precision Farming – Supporting Innovation 242

W.C.T. Chamen
Controlled Traffic Farming on a Field Scale in the UK 251

Hauke Petersen, Heiner Fleige, Wolfgang Rabbel, Rainer Horn
**Geophysical Methods for Imaging Soil Compaction and Variability
of Soil Texture on Farm Land** 261

CHAPTER VII
SOIL EROSION AND ITS CONTROL

Peter Fiener and Karl Auerswald
**Rotation Effects of Potato, Maize and Winter Wheat on Water
Erosion from Cultivated Land** 273

Sheng Li, David A. Lobb and Michael J. Lindstrom
**Measuring and Modeling Tillage Translocation and Tillage Erosion
in Cereal-Based Production in the Canadian Prairies** 281

Anke Knapen and Jean Poesen
**Enhancing the Soil's Erosion Resistance During Concentrated Runoff
by Reducing Tillage Disturbance** 290

<i>Liisa Pietola, Kimmo Rasa, Mari Rätty, Jaana Uusi-Kämppä, Markku Yli-Halla, Rainer Horn and Rolf Tippkötter</i> Management-Induced Changes of Soil Physical Properties in Vegetated Buffer Zones	301
<i>Rainer Duttmann and Michaela Bach</i> Long-Term Wind Erosion and its Impact on Soil Heterogeneity in Sandur Plain Landscapes in Northern Germany	309
CHAPTER VIII	
ECONOMICAL ASPECTS	
<i>Victor Adamiade, Pauline Défossez, Bruno Mary and Guy Richard</i> Prediction of Soil Physical Behavior According to Organic Carbon Content in the Context of Straw Exportation for Energy Production	320
<i>Zofia Stepniewska and Pavel Misztal</i> Oxygenation Level and Gas Dynamics in a Loess Soil Suspension after Exposure to Visible Light	328
CHAPTER IX	
SOIL MANAGEMENT INDUCED GLOBAL CHANGE EFFECTS	
<i>Jaana Uusi-Kämppä</i> Vegetated Buffer Zones for Agricultural Non-Point Source Pollution Control	337
<i>Manon Janssen and Bernd Lennartz</i> Horizontal and Vertical Water Fluxes in Paddy Rice Fields of Subtropical China	344
<i>Virginijus Feiza and Gintautas Cesevicius</i> Soil Physical Properties: An Approach to Optimize Tillage in Crop Production System in Lithuania	355
<i>Katrin Trükmann, Endla Reintam, Jaan Kuht, Virgo Rääts</i> Growing of Mugwort (<i>Artemisia vulgaris</i> L.), Canadian Thistle (<i>Cirsium arvense</i> L.) and Yellow Lupine (<i>Lupinus luteus</i> L.) on Compacted Soil	362
<i>Gerard Jitäreanu, Costică Ailincăi and Daniel Bucur</i> Influence of Tillage Systems on Soil Physical and Chemical Characteristics and Yield in Soybean and Maize Grown in the Moldavian Plain	370
<i>Horst H. Gerke</i> Exploring Preferential Flow in Forest-Reclaimed Lignitic Mine Soil	380
<i>Maria I. Kokkora, Mike J. Hann, Richard J. Godwin</i> Biowaste and Vegetable Compost Utilization in Agriculture: An Agronomic and Environmental Assessment	388
<i>Bärbel Tiemeyer, Bernd Lennartz and Petra Kahle</i> Analysing Nitrate Fluxes at Different Scales in an Artificially Drained Lowland Catchment by a Combined Hydrograph Separation-Mixing Mode	395

<i>Ralf Loges, M.R. Kelm F. and Taube</i> Nitrogen Balances, Nitrate Leaching and Energy Efficiency of Conventional and Organic Farming Systems on Fertile Soils in Northern Germany	407
--	-----

CHAPTER X

SOIL STRUCTURE FORMATION AND PHYSICAL PROCESSES

<i>Guy Richard, Arlene Besson, Abdoulnasser Aboubacar Sani, Philippe Cosenza, Hubert Boizard and Isabelle Cousin</i> A New Approach of Soil Structure Characterisation in Field Conditions Based on Electrical Resistivity Measurements	415
---	-----

<i>Lloyd D. Norton, Amrakh I. Mamedov, Chi-hua Huang and Guy J. Levy</i> Soil Aggregate Stability as Affected by Long-Term Tillage and Clay Mineralogy	422
--	-----

<i>Barbora Badaliková and Jan Hrubý</i> Influence of Minimum Soil tillage on Development of Soil Structure	430
--	-----

<i>Azadeh Safadoust, Mohammad Reza Mosaddeghi and Ali Akbar Mahboubi</i> Tensile Strength of Air-Dry Soil Aggregates as Influenced by Short-Term Management Practices in Western Iran	436
---	-----

<i>Imke Janßen, Xinhua Peng and Rainer Horn</i> Physical Soil Properties of Paddy Fields as a Function of Cultivation History and Texture	446
---	-----

<i>Alvin J.M. Smucker and Eun-Jin Park</i> Soil Biophysical Responses by Macroaggregates to Tillage of Two Soil Types	456
---	-----

<i>Bev Kay and Nathaniel Novosad</i> Quantifying the Role of Anaerobic Microsites on the Onset of Denitrification in Soils of Different Texture, Structure and Water Content	461
--	-----

<i>Emilia Jasinska, Paul Hallett and Rainer Horn</i> Spatial Distribution of Hydrophobic and Hydrophilic Compounds and Repellency in Aggregat	467
---	-----

<i>Debbie S. Feeney, A.Glyn Bengough, Paul D. Hallett, Sheena Rodger, Nia White and Iain M. Young</i> Assessing the Impact of Biological Exudates Associated with Soil Water Repellency	475
---	-----

<i>Kyriakos P. Panayiotopoulos and Efrosini Babatsikou</i> Migration of Dispersed Clay in Alfisols	484
--	-----

<i>Jan J.H. van den Akker</i> Evaluation of Soil Physical Quality of Dutch Subsoils in two Databases with some Threshold Values	490
---	-----
