PORTRAIT: Dr. Johnson's Transitory Aphasia

The Neurological Examination 748

- The Patient's History 748

The Physical Examination	748
Vascular Disorders	749
Cerebral Ischemia	750
Migraine Stroke	750
Cerebral Hemorrhage	751
Angiomas and Aneurysms	751
The Treatment of Vascular Disorders	751
Traumatic Brain Injuries	752
Open-Head Injuries	752
Closed-Head Injuries	753
Behavioral Assessment in Head Injury	755
Recovery from Head Injury	756
Epilepsy	757
Focal Seizures	758
Generalized Seizures	758
Akinetic and Myoclonic Seizures	758
The Treatment of Epilepsy	758
Tumors	759
Headaches	760
Migraine	760
Headache Associated with Neurological Disease	761
Muscle-Contraction Headache	762
Nonmigrainous Vascular Headaches	762
The Treatment of Headaches	762
Infections	762
Viral Infections	763
Bacterial Infections	764
Mycotic Infections	764
Parasitic Infestations	764
The Treatment of Infections	764
Disorders of Motor Neurons and the Spinal Cord	765
Myasthenia Gravis	766
Poliomyelitis	766
Multiple Sclerosis	766
Paraplegia	766
Brown-Séquard Syndrome	767
Hemiplegia	768
Disorders of Sleep	768
Narcolepsy	770
Insomnia	771
SNAPSHOT: Restless Legs Syndrome	772

CHAPTER 27

Psychiatric and Related Disorders 775

PORTRAIT: Losing Touch with Reality

The Brain and Behavior 775

- Schizophrenia 776
- Structural Abnormalities in Schizophrenic Brains 776
 - Biochemical Abnormalities in Schizophrenic Brains 777
 - Types of Schizophrenia? 778
 - Schizophrenia As a Disorder of Development 778
 - Neuropsychological Assessment 779
- Mood Disorders 779
- Neurochemical Aspects of Depression 779
 - Blood Flow and Metabolic Abnormalities in Depression 781
- SNAPSHOT: Cortical Metabolic and Anatomical Abnormalities in Mood Disorders 782**
- Neurobiological Aspects of Bipolar Disorder 783
 - Vitamins, Minerals, and Mood 784
- Psychiatric Symptoms of Cerebral Vascular Disease 784
- Psychosurgery 785
- Motor Disorders 786
- Hyperkinetic Disorders 786
 - Hypokinetic Disorders 790
 - Causes of Parkinsonism 793
 - The Treatment of Parkinson's Disease 794
 - Psychological Aspects of Parkinson's Disease 795
- Dementia 796
- Anatomical Correlates of Alzheimer's Disease 797
 - Putative Causes of Alzheimer's Disease 799
 - Clinical Symptoms and the Progression of Alzheimer's Disease 800

CHAPTER 28

Neuropsychological Assessment 805

PORTRAIT: Lingerin Effects of Brain Trauma

The Changing Face of Neuropsychological Assessment 806

Functional Imaging 806

Cognitive Neuroscience 807

Managed Care 808

Rationale Behind Neuropsychological Assessment 808

Factors Affecting Test Choice 809

Goals of Neuropsychological Assessment 810

Intelligence Testing in Neuropsychological Assessment 811

Categories of Neuropsychological Assessment 812

Neuropsychological Tests and Brain Activity 813

The Problem of Effort 813

Case Histories 814

Case 1 815

Case 2 815

Case 3 816
