<i>List of Abbreviations</i>	xii
1. On the 'Art' of Explanation	1
1.1. The State of the Art in Generative Linguistics	1
1.2. Explanation as an Epistemological Problem	8
1.3. Is There Anything to Explain?	11
2. Explanation from a Macrolinguistic Perspective	18
2.1. The Neurological Approach	19
2.2. The Phonetic Approach	23
2.3. The Psychological Approach	27
2.4. The Semiotic Approach	37
2.5. The Functional-Communicative Approach	40
2.6. The Pragmatic Approach	42
2.7. The Sociocultural Approach	45
2.8. The Historical Approach	49
2.9. The System-Internal Approach	51
2.10. Conclusion	53
3. Method	56
3.1. Prediction Instead of Post Hoc Explanation	56
3.2. The Explanans: Psycholinguistic Patterns	58
3.3. The Explanandum: Linguistic Patterns	63
3.4. Relating Psycholinguistics to Linguistics	65
4. Language Structure	68
4.1. The Representational Status of Phonemes	69
4.2. The Structure of Onsets and Codas	73
4.3. The Structure of Syllable Contacts	79
4.4. Word Onset Structure in German and Spanish	83
4.5. Subsyllabic Suprasegmental Constituents	85
4.6. Constraints on the Repetition of Identical Elements	88
4.7. The Status of the Syllable	98
4.8. The Role of Lexical Stress	102
4.9. Stress and Its Effect on Consonants and Vowels	106
4.10. Stress and Syllable Structure in English/German and Spanish	110
4.11. Assimilation	113
4.12. The Position of Phonological and Morphological Processes in Words	118

4.13.	Morphophonology	120
4.14.	Iconicity	123
4.15.	The Morphophonology of Vowel Length	135
4.16.	The Differential Ease of Morphological Processes: Substitution vs. addition	140
4.17.	The Varying Strength of Linguistic Constraints	145
4.18.	The Order of Inflectional and Derivational Suffixes	148
4.19.	Blending	151
4.20.	Linear Distance Effects	157
4.21.	Adjective/Noun Order in Noun Phrases	161
5.	Language Change	165
5.1.	Spontaneous Errors and Sound Change: A Macroscopic View	165
5.2.	Spontaneous Errors and Sound Change: A Microscopic View	169
5.3.	Phonological Similarity in Sound Change: I	185
5.4.	Phonological Similarity in Sound Change: II	191
5.5.	Dimensional Preferences in Consonant Change	194
5.6.	Dimensional Preferences in Vowel Change	198
5.7.	The Differential Susceptibility of Consonants and Vowels to Change	201
5.8.	Repair Strategies in Sound Change	204
5.9.	The Special Nature of /sC/ Clusters	206
5.10.	Palatalization	211
5.11.	The Differential Vulnerability of Word Beginnings and Ends	213
5.12.	The Differential Strength of Reduction Processes in English and Spanish	216
5.13.	The Differential Susceptibility of Open- and Closed-Class Items to Phonological Change	220
5.14.	Paradigmatic Pressure Towards Pattern Symmetry	224
5.15.	Resolving Phonological Problems at the Lexical Level	230
5.16.	Verb Inflection	233
5.17.	Local Frequency Effects	241
5.18.	Global Frequency Effects	250
5.19.	The Differential Stability of Word Class and Grammatical Gender	254
6.	Poetic Language	259
6.1.	Imperfect Rhymes in German	259
6.2.	The Onset of Rhymes in English and French	264
6.3.	Rhymes in Arabic Verse	274
7.	Discussion	278
7.1.	Overall Results	278
7.2.	The Theoretical Significance of the Recalcitrant Data	279

8. A Psycholinguistic Model of Language Structure and Change	282
8.1. How Processing Biases Penetrate Language	282
8.2. Three Ways of Conceiving the Explanatory Role of Processing	288
8.3. Further Aspects of the Theory	291
8.4. The Suffixing Preference Revisited	293
8.5. Causality in Language Change	297
8.6. The Psycholinguistic Basis of Poetry	298
9. Implications for Psycholinguistic Theory	300
10. The Overall Perspective: Reductionist or Non-Reductionist?	302
