## Contents

*Klabunde, R. and Stutterheim, C.von*
Preface: Language production as an interdisciplinary undertaking ..... 7

*Herrmann, T. and Graf, R.*
Conceptual and semantic knowledge: A psychological perspective ..... 17

*Rummer, R.*
Cognitive load and the conceptual planning of utterances: Partner-adaption as epiphenomenon of process characteristics (?) ..... 43

*Dietrich, R.*
On the production of word order and the origin of incrementality ..... 57

*Glatz, D., Klabunde, R. and Porzel, R.*
Anatomy of a spatial description ..... 89

*Habel, C. and Tappe, H.*
Processes of segmentation and linearization in describing events ..... 117

*Stutterheim, C. von*
How language specific are processes in the conceptualiser? ..... 153

*Nuyts, J.*
Processing epistemic modality:
Some consequences for modeling language production ..... 181

*Eikmeyer, H.-J., Schade, U., Kupietz, M. and Laubenstein, U.*
A connectionist view of language production ..... 205

*Jescheniak, J.*
Accessing words in speaking: Models, simulations, and data ..... 237

*Maier, S. and Spitzer, M.*
Network models and formal thought disorder:
Associative processes in schizophrenic patients ..... 259

*Kaltenbacher, E.*
Production processes in first language acquisition ..... 281

List of contributors ..... 305
