Chapter	
1 ADULT-CHILD AND CHILD-CHILD VERBAL INTERACTIONS	1
Adult-Child Verbal Interactions	1
Maternal Speech	1
Phonetics and Phonology	2
Lexical Semantics	4
Structural Semantics	9
Morphosyntax	16
Pragmatics	26
Verbal Feedback	32
Gestural Context	39
Understanding Children's Language	40
Other Linguistic Environments	42
Fathers' Speech	42
Teachers' Speech	50
Additional Variables	54
Children's Sex	54
Social Class	56
Cultural Background	59
Child-Child Verbal Interactions	61
Notes	63
2 EXPLAINING PARENTAL LINGUISTIC ADAPTATIONS	65
The Conversational Hypothesis	65
The Implicit Language-Teaching Hypothesis	67

Chapter	Page
The Linguistic Feedback Hypothesis	68
Receptive Level	68
Productive Level	71
Parents' Knowledge of Children's Language	87
Language Acquisition in an Interpersonal Perspective	91
The Model	92
The Principle of Continuous and Dynamic Functioning	94
Notes	96
 3 EFFECTS OF PARENT-CHILD INTERACTIONS ON LANGUAGE ACQUISITION	 98
Effects of Parental Speech	98
Prosodic and Rhythmic Modifications	98
Lexicon	100
Segmenting	101
Verbal Labeling	106
Morphosyntax	108
Feedback	127
Verbal Feedback	127
Affective Feedback	130
Gestural Context	135
Relevance of Parental Language	136
Notes	146
 4 TEACHING AND LEARNING LANGUAGE	 149
Teaching-Learning Principles for Language Acquisition	149
The Language-Learnability Question	157
Parental Language-Teaching Strategies and Children's Language-Learning Strategies	160
Notes	168
 CONCLUSION	 169
 BIBLIOGRAPHY	 171
 AUTHOR INDEX	 203
 SUBJECT INDEX	 209
 ABOUT THE AUTHOR	 217

LIST OF TABLES AND FIGURES

Table	Page
1.1 Type-Token Ratios in Mothers' Speech to Children	5
1.2 Mean Lexical Distribution of Formal Classes in Mothers' Speech to Children	8
1.3 Major Semantical Types of Verbs and Basic Semantical Relationships	10
1.4 Average Distribution of Major Semantical Types of Verbs in Mothers' Speech to Children and in Children's Speech	12
1.5 Prevalent Semantic Relations in Dutch Mothers' Speech to 2-year-olds during Free Play and Book Reading	14
1.6 Semantic and Syntactic Roles in Mothers' and Children's Speech during Free Play	15
1.7 MLU in Maternal Speech to the Child and in Child's Speech to the Mother	18
1.8 Mean Distribution of Utterances by Length of Maternal Speech to Children	22
1.9 Mean Distribution of Sentence Types in Maternal Speech to Children	25
1.10 Distribution of Speech Acts in Maternal Speech to Children	28
1.11 Functional Descriptive Categories of Maternal Speech to Children and Children's Speech to Mothers	30
1.12 Self-Repetitions in Maternal Speech to Children	32

Table	Page
1.13 Explicit Verbal Approval and Disapproval by Mothers of Children's Language in Dyadic Interaction Situations	34
1.14 Expansions and Explicit Corrections of Children's Speech by Mothers	37
1.15 Frequency of Maternal Gesture Types by Children's Age and by Task	40
1.16 Correct Comprehension by Listeners Responding to Relative, Nonrelative, and/or Children in General	41
1.17 Major Characteristics of Mothers' Speech to Language-Learning Children	43
1.18 Paternal and Maternal Speech to 18- to 24-month-old Children	44
1.19 Paternal and Maternal Speech to 20-month-old Children	45
1.20 Paternal and Maternal Speech to 18- to 36-month-old Children	46
1.21 Evolution of Paternal and Maternal Speech by Children's Age and MLU	49
1.22 Speech of 4 Preschool and Primary-School Teachers in 2 French-speaking Schools, Quebec City	52
1.23 Maternal Speech to 18- to 34-month-old Children according to Socioeconomic Class	58
2.1 Maternal MLU by Chronological Age and MLU of Moderately and Severely Handicapped Children	73
2.2 Mean Length of Utterance, Chronological Age, and Standard Deviation of the Children in Rondal's 1978b Study	75

Table	Page
2.3 Measures of Maternal Speech to Normal and Down's Syndrome Children Matched for MLU	76
2.4 Measures of Language of Normal and Down's Syndrome Children Matched for MLU	79
2.5 Verbal Adaptations in Speech Exchanged by Normally Developing and Mentally Handicapped Children and among Mentally Handicapped Children by Level of Language Development	81
2.6 Maternal Language Adaptation by Physical and Verbal Presence of the Child	86
2.7 Maternal Knowledge of Phonological and Syntactic Aspects of Children's Language	89
3.1 Children Passing a Comprehension Task at Least Once, by Age	102
3.2 Children's Imitations of Adult Speech by Word Position in Utterance	103
3.3 First Words Produced by 2 French-speaking Children and Corresponding Parental Models	105
3.4 Maternal Speech to 18-month-old Children and Children's Speech at 27 Months	110
3.5 Double Partial Correlations between Maternal Speech and Child Language Growth, Partialling Out Initial Child Age and Language	116
3.6 Parental Input Frequency and Age of Mastery of Specific Morphemes	122
3.7 Maternal Speech and Children's Syntactic Growth	131
3.8 Cognitivoperceptive Strategies Proposed by Slobin for Children's Analysis of Morpho-syntactical Aspects of Adult Input	139

Table	Page
4.1 Interactional Structures and the Behavioristic 3-term Contingency Pattern for Eve's and Adam's Dyads	164

Figure

1.1 Relationship between Mothers' and Children's MLU	20
2.1 Maternal MLU by Children's Chronological Age and MLU for Normal and Moderately and Severely Mentally Handicapped Children	74
2.2 General Mechanism for Language Acquisition	93
