Introduction: new approaches to language evolution  
*Michael Studdert-Kennedy, Chris Knight and James R. Hurford* 1

**Part I Grounding language function in social cognition**

- 1 Introduction: grounding language function in social cognition  
*Chris Knight* 9
- 2 On discontinuing the continuity-discontinuity debate  
*Jean Aitchison* 17
- 3 The origin of language and cognition  
*Ib Ulbaek* 30
- 4 Mimesis and the Executive Suite: missing links in language evolution  
*Merlin Donald* 44
- 5 Ritual/speech coevolution: a solution to the problem of deception  
*Chris Knight* 68
- 6 Theory of mind and the evolution of language  
*Robin Dunbar* 92
- 7 Old wives' tales: the gossip hypothesis and the reliability of cheap signals  
*Camilla Power* 111
- 8 Altruism, status and the origin of relevance  
*Jean-Louis Dessalles* 130
- 9 The evolution of language from social intelligence  
*Robert Worden* 148

**Part II The emergence of phonology**

- 10 Introduction: the emergence of phonology  
*Michael Studdert-Kennedy* 169
- 11 Long-call structure in apes as a possible precursor for language  
*Mária Ujhelyi* 177
- 12 Social sound-making as a precursor to spoken language  
*John L. Locke* 190
- 13 The particulate origins of language generativity: from syllable to gesture  
*Michael Studdert-Kennedy* 202
- 14 Evolution of the mechanisms of language output:  
 comparative neurobiology of vocal and manual communication  
*Peter F. MacNeilage* 222
- 15 Systemic constraints and adaptive change in the formation of sound structure  
*Björn Lindblom* 242

- 16 The development of sound systems in human language  
*Klaus J. Kohler* 265
- 17 Synonymy avoidance, phonology and the origin of syntax  
*Andrew Carstairs-McCarthy* 279

**Part III The emergence of syntax**

- 18 Introduction: the emergence of syntax  
*James R. Hurford* 299
- 19 On the supposed 'counterfunctionality' of Universal Grammar:  
some evolutionary implications  
*Frederick J. Newmeyer* 305
- 20 Language evolution and the Minimalist Program: the origins of syntax  
*Robert C. Berwick* 320
- 21 Catastrophic evolution: the case for a single step from protolanguage  
to full human language  
*Derek Bickerton* 341
- 22 Fitness and the selective adaptation of language  
*Simon Kirby* 359
- 23 Synthesizing the origins of language and meaning using coevolution,  
self-organization and level formation  
*Luc Steels* 384
- 24 Computational simulations of the emergence of grammar  
*John Batali* 405
