Introduction: The Neuropsychology of Motor and Sensory Processes of Language <i>Eric Keller and Myrna Gopnik</i>		ix
Chapter 1 Jacques Lordat or the Birth of Cognitive Neuropsychology <i>André Roch Lecours, Jean-Luc Nespoulous, and Dominique Pioger</i>		1
Chapter 2 The Role of Word-Onset Consonants in Speech Production Planning: New Evidence from Speech Error Patterns <i>Siefanie Shattuck-Hufnagel</i>		17
Chapter 3 Production Deficits in Broca's and Conduction Aphasia: Repetition versus Reading <i>Jean-Luc Nespoulous, Yves Joanette, Bernadette Ska, David Caplan, and André Roch Lecours</i>		53
Chapter 4 Damage to Input and Output Buffers—What's a Lexicality Effect Doing in a Place Like That? <i>Daniel Bub, Sandra Black, Janice Howell, and Andrew Kertesz</i>		83

Chapter 5	Phonological Representations in Word Production <i>David Caplan</i>	111
Chapter 6	The Cortical Representation of Motor Processes of Speech <i>Eric Keller</i>	125
Chapter 7	Programming and Execution Processes of Speech Movement Control: Potential Neural Correlates <i>Vincent L. Gracco and James H. Abbs</i>	163
Chapter 8	Intrinsic Time in Speech Production: Theory, Methodology, and Preliminary Observations <i>J. A. S. Kelso and Betty Tuller</i>	203
Chapter 9	Kinematic Patterns in Speech and Limb Movements <i>David J. Ostry and J. David Cooke</i>	223
Chapter 10	Routes and Representations in the Processing of Written Language <i>John C. Marshall</i>	237
Chapter 11	Speech Perception and Modularity: Evidence from Aphasia <i>Sheila E. Blumstein</i>	257
Chapter 12	The Neurofunctional Modularity of Cognitive Skills: Evidence from Japanese Alexia and Polyglot Aphasia <i>Michel Paradis</i>	277
