Preface	vii
1 Introduction	1
1.1 Purpose · 1	
1.2 Logic Programming and Language · 1	
1.3 Programming In Prolog · 3	
1.4 Overview · 4	
1.5 Bibliographic Notes · 5	
2 Database Prolog	9
2.1 Databases and Queries · 9	
2.2 Extending the Query Language · 11	
2.3 The Logic of Prolog · 14	
2.4 The Operation of Database Prolog · 18	
2.5 Recursive Predicate Definitions · 22	
2.6 Problem Section: Semantic Networks · 26	
2.7 Context-Free Grammars · 29	
2.8 Problem Section: Grammars · 37	
2.9 Bibliographic Notes · 42	
3 Pure Prolog	45
3.1 Prolog Notation Revisited · 45	
3.2 Terms and Unification · 46	
3.3 Functions in Prolog and Other Languages · 48	
3.4 Lists · 52	
3.5 The Logic and Operation of Prolog Revisited · 62	
3.6 Problem Section: Terms and Lists · 66	
3.7 Definite Clause Grammars · 70	

3.8	Problem Section: DCGs	79	
3.9	Bibliographic Notes	87	
4	Further Topics in Natural-Language Analysis		91
4.1	Semantic Interpretation	91	
4.2	Extending the Syntactic Coverage	114	
4.3	Problem Section: Grammar Extensions	129	
4.4	Bibliographic Notes	134	
5	Full Prolog		137
5.1	Metalogical Facilities	137	
5.2	A Simple Dialogue Program	149	
5.3	User Interaction	154	
5.4	Bibliographic Notes	157	
6	Interpreters		159
6.1	Prolog in Prolog	160	
6.2	Problem Section: Prolog Interpreters	165	
6.3	Interpreters for DCGs	167	
6.4	Partial Execution and Compilers	172	
6.5	Bottom-Up Parsing	178	
6.6	Tabular Parsing	185	
6.7	Problem Section: DCG Interpreters and Compilers	207	
6.8	Bibliographic Notes	209	
A	Listing of Sample Programs		211
A.1	A Note on Programming Style	211	
A.2	The TALK Program	212	
A.3	The DCG Compiler	224	
Bibliography			231
Name Index			245
Subject Index			249
