

# Contents

|   |     |
|---|-----|
| Introduction.....   | 1   |
| <i>J. S. Wettlaufer</i>   |     |
| <br><b>Part 1 Chapters</b>  |     |
| History of the Search for a Theory of Melting .....   | 11  |
| <i>J. G. Dash</i>   |     |
| Nucleation and Surface Melting of Ice .....   | 23  |
| <i>David W. Oxtoby</i>  |     |
| Crystal Growth, Surface Phase Transitions and Thermomolecular Pressure .....                                  | 39  |
| <i>J. S. Wettlaufer</i>   |     |
| Some Aspects of the Physics of Glaciers.....  | 69  |
| <i>W. S. B. Paterson</i>  |     |
| Stable Isotope Records from Greenland Deep Ice Cores: The Climate Signal and the Role of Diffusion .....      | 89  |
| <i>Sigfús J. Johnson, H. B. Clausen, Jean Jouzel, Jakob Schwander, Árný E. Sveinbjörnsdóttir, James White</i> |     |
| Present and Past Glaciations: A Geological Perspective .....  | 109 |
| <i>Krzysztof Birkenmajer</i>  |     |
| Ice in the Troposphere .....  | 121 |
| <i>M. B. Baker</i>  |     |

|   |     |
|---|-----|
| Physico-Chemistry of Polar Stratospheric Clouds.....  | 143 |
| <i>Thomas Peter</i>   |     |
| A Minimal Model of Sea Ice and Climate.....   | 169 |
| <i>Alan Thorndike</i>   |     |
| Forecasting Ice on Lakes, Estuaries and Shelf Seas .....  | 185 |
| <i>Anders Omstedt</i>   |     |
| On Productivity in Ice-Covered Polar Oceans   |     |
| <i>Ole Jørgen Lønne</i> .....   | 209 |
| The Freezing of Soils: Ice in a Porous Medium and Its Environmental<br>Significance .....       | 219 |
| <i>Peter J. Williams</i>  |     |
| Ground Freezing Technology for Environmental Remediation .....                                  | 241 |
| <i>J. G. Dash</i>   |     |
| Nuclear Contamination and Environmental Damage from Oil Spills in<br>Polar Regions of FSU ..... | 253 |
| <i>Lydia Popova</i>   |     |

## **Part 2 Lecture Notes**

|   |     |
|---|-----|
| Lecture Notes on Water in Ice: Microscopic and Geophysical Scales ..... | 273 |
| <i>John Nye</i>   |     |

## **Part 3 Articles**

|   |     |
|---|-----|
| Local Ice Deformation Under the Influence of Natural Forces:<br>Field Observations and Analyses of Cyclic Oscillations..... | 281 |
| <i>Yevgeny Aksenov, Peter Wadhams</i>   |     |
| Corrugations of the Sea-Ice–Ocean Interface Caused by Ocean Shear.....  | 285 |
| <i>Daniel L. Feltham, M. Grae Worster</i>   |     |

|  |     |
|--|-----|
| Climatic Changes in the Mountain Glacier Area of Pamir .....   | 289 |
| <i>Alexander Finaev</i>  |     |
| Geometric Selection in Ice Polycrystals: Concavity, Faceting, and Kinetics.....                                    | 295 |
| <i>V. A. Hodgkin, J. S. Wettlaufer, J. G. Dash</i>   |     |
| Snowpack Accumulation Trends in California.....  | 299 |
| <i>Tammy Johnson, Jeff Dozier, Joel Michaelsen</i>   |     |
| Neutron Spectroscopy of Vapour Deposited Amorphous Ice .....   | 305 |
| <i>A. I. Kolesnikov, J.-C. Li</i>  |     |
| Comet 46P/Wirtanen: The Influence of Grain Sintering on the Evolution<br>of the Subsurface Layer .....             | 309 |
| <i>Konrad J. Kossacki, Slawomira Szutowicz</i>   |     |
| Water Ice as the Main Component of Icy Satellites .....  | 315 |
| <i>Jacek Leliwa-Kopystynski</i>  |     |
| Surface Melting of Ice and Thunderstorm Electrification.....   | 321 |
| <i>B. L. Mason, J. G. Dash</i>   |     |
| A Mathematical Model of Wide Subglacial Water Drainage Channels .....  | 325 |
| <i>Felix Ng</i>  |     |
| High Uptake Efficiency and Conductivity of Polycrystalline Ice: Implication to<br>UT/LS Clouds and Contrails ..... | 329 |
| <i>N. V. Persiantseva, O. B. Popovitcheva, T. V. Rakhimova</i>   |     |
| Methane Bubble Inclusions in Ice on High Latitude Lakes<br><i>Allan R. Phelps, Martin O. Jeffries</i> .....        | 335 |
| Modelling Sea Ice Roughness in the Arctic.....   | 341 |
| <i>N. Steiner, M. Harder, P. Lemke</i>   |     |
| Dynamical Calculations for the Proton Ordered Ice II Structure .....   | 347 |
| <i>Y. Wang, S. L. Dong, J.-C. Li</i>   |     |
| Subject Index.....   | 351 |
