
Contents

- **Preface** xiii
George A. Mashour, MD, PhD

- **A Brief History of Sleep and Anesthesia** 1
Amanda J. Walker, and George A. Mashour, MD, PhD

- **Developmental Perspectives: is the Fetus Conscious?** 11
Roland Brusseau, MD, FAAP

- **Are We Unconscious During General Anesthesia?** 25
Anthony G. Hudetz, DBM, PhD

- **General Anesthetics and Molecular Mechanisms of Unconsciousness** 43
Stuart A. Forman, MD, PhD, and Victor A. Chin, MD

- **Loss of Effective Connectivity During General Anesthesia** 55
Michael T. Alkire, MD

- **Neurochemical Modulators of Sleep and Anesthetic States** 75
Christa J. Van Dort, BS, Helen A. Baghdoyan, PhD,
and Ralph Lydic, PhD

- **Learning and Memory During Sleep and Anesthesia** 105
Jonathan D. Reasor, PhD, and Gina R. Poe, PhD

- **Brain Function in Physiologically, Pharmacologically, and Pathologically Altered States of Consciousness 131**
Pierre Boveroux, MD, Vincent Bonhomme, MD, PhD,
Mélanie Boly, MD, Audrey Vanhauzenhuysse, MSc,
Pierre Maquet, MD, PhD, and Steven Laureys, MD, PhD

- **Functional Neuroimaging of Disorders of Consciousness 147**
Martin R. Coleman, PhD, and Adrian M. Owen, PhD

- **An Excitatory Path to Unconsciousness: Nonconvulsive Status Epilepticus 159**
Sheron Beltran, MD, and Teresa Jacobs, MD

- **Unconsciousness in the Intensive Care Unit: A Practical Approach 171**
Ryan Hakimi, DO, MS, and David L. McDonagh, MD

- **Unconscious Processes in Psychoanalysis and Anesthesiology 195**
George A. Mashour, MD, PhD

- **Index 203**
